

SPRING SESSION 2

Golf in Schools is excited to offer an introductory golf class to the students of McKinley Elementary School. Each lesson focuses on a golf skill as well as a life skill. Students walk away from our classes having learned the rules, etiquette, elements of a golf hole, how to grip, aim, stand and swing. Students learn about honesty and how to be a good competitor. Students apply goal setting, and discover the importance of being your best.

"The curriculum that Golf in Schools offers is genius. They have found a way to effectively help young kids develop their skills all while having fun!"

Ryan Clemens, PGA Head Golf Professional - Pumpkin Ridge Golf Club

- Spring 2 classes begin Monday March 12th - April 23rd, 2012
