

Beaverton School District

Kindergarten Technology Learning Targets

Ethics and Citizenship

Advocate and practice safe, responsible use of information and technology

- Discuss and follow classroom rules for responsible use of technology
- Demonstrate responsible use of technological equipment and software as outlined in the acceptable use statement from the Students Rights and Responsibilities handbook

Respect self, other users, and digital property (e.g. plagiarism, cyberbullying, privacy)

- Demonstrate respect for existing desktop configuration and user's properties such as assignments and projects

Creative Use of Technology

Use technology as a means to develop innovative products that reflect originality and self-expression

- Explore multimedia tools to create a simple product

Communication and Collaboration

Present information and ideas effectively to a variety of audiences

- Understand that multimedia presentations can be used to enhance learning

Research

Locate, organize, analyze, and cite information from a variety of sources and media

- Explore technology resources in a whole group teacher led activity to gain information on a topic

Technology Operations

Understand and operate systems and applications

- Operate input systems (e.g. keyboard, mouse, etc.)
- Log in and log out of systems

Troubleshoot systems and applications

- Use appropriate terminology (e.g., mouse, keyboard, website, monitor)
- Understand ways to get assistance when something isn't working

Keyboarding

- Develop a familiarity with keyboard features (e.g., basic keys, arrow keys, return) and mouse commands (e.g., single/double click)
