

Nourishing minds by providing appealing, nutritious meals for students while they are in school.

Nutrition Services

Beaverton School District

<https://www.beaverton.k12.or.us/district/departments/nutserv>

Nutrition Services is committed to providing healthy **School Meals** as well as offering **After School Supper** and **Summer Food Programs** to promote healthy eating and increased learning. We employ more than 290 staff who work to serve an average of 20,281 meals per day to students throughout the district.

We are members of **School Food Focus** and the **NW Food Buyers Alliance**. Through these local collaborations, we are working to build healthier, more resilient communities by sourcing and serving good food from local farmers and producers.

To ensure that all children have access to healthy, **local** food, we also participate in the **National Farm to School Program**. Nutrition Services is committed to building connections and relationships with local farmers and producers, while strengthening the local economy.

We participate in the **USDA Fresh Fruit and Vegetable Program**. At the two participating elementary schools, additional fresh fruits and vegetables are offered several days each week to all students during the school day. The FFVP helps schools create healthier school environments by providing a greater variety of fruits and vegetables and increases children's consumption.

Our **Meal Benefits Department** actively works to be a resource for parents and students that wish to apply for meal benefits at any time during the school year. Applications can be filled out via hardcopy or more quickly online through **Schoolcafe.com**. After registering online for this service, families can track their application, make payments, set up automatic payments to replenish meal funds, view purchase history, and receive low balance alerts.
