### **TRANSPORTATION OPTIONS**

For schools and programs which **will not** receive bus service due to inclement weather, families have the following two transportation options are available:

- OPTION 1: You may elect to transport the child yourself and receive reimbursement from the BSD Transportation Department for mileage (at the district rate) to and from the program/school.
- OPTION 2: You may choose instead to contact **Green Transportation (503-234-1414)** and request that they transport your child. You need to ask for a district-approved driver. Green Transportation is the only company with arrangements to transport Beaverton students. BSD will reimburse the parent for the cab fare when presented with a receipt. A receipt can be obtained from the driver.
