

Instructional Resources/Instructional Materials**

While the Board retains the authority to approve district instructional materials adoptions, it authorizes the superintendent to develop and implement administrative procedures governing how selections are determined. Such procedures will provide for administrator, staff, parent, student and community involvement and employ suitable selection criteria to ensure that the recommended instructional materials will meet the needs of the program, students, teachers and community.

The district shall require the adopted instructional materials to be used in its schools at the beginning of the next school year following the state adoption, except when, the Board is authorized by the Superintendent of Public Instruction to postpone such use for a reasonable period of time.

Instructional material for purposes of Oregon law is defined as any organized system which constitutes the major instructional vehicle for a given course of study, or any part thereof. A major instructional vehicle may encompass such instructional items as a hardbound or a softbound book or books, sets or kits of print and non-print materials, such as electronic and internet or web-based materials or media.

Upon prior notice to the State Board of Education, the Board may adopt and use instructional materials in place of or in addition to those adopted by the State provided they meet the established guidelines and criteria by the State.

The Board shall adopt instructional materials for free use by all students enrolled in kindergarten through grade 12.

Instructional materials implement, enrich and support the educational program of the district. A wide range of instructional materials with diversity of appeal, points of view and levels of reading ability will be provided.

The selection of instructional materials shall implement the following objectives:

1. To provide a comprehensive collection of instructional materials which will implement, enrich, support and extend the curriculum and encompass the varied interests and socio-economic backgrounds of the students, while ensuring materials are appropriate based on their age, abilities and maturity levels;
2. To provide instructional materials which will stimulate growth in the areas of factual knowledge, critical thinking, literary appreciation and aesthetic values;

3. To provide instructional materials that are representative of the contributions of all people, regardless of race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, citizenship, marital status, age, disability, familial status, appearance or source of income, and to identify, mitigate and/or eliminate culturally biased materials;
4. To provide for coordination of instructional materials between and within elementary, middle and high schools;
5. To provide instructional materials on controversial issues which will enable students to develop under guidance, critical analysis of media;
6. To involve teachers, administrators, students, parents and citizens of the community in the development of criteria for the selection of instructional materials. Criteria developed by the district must not be in conflict with criteria approved by the State Board of Education;
7. To provide procedures whereby parents and citizens of the community may question the use of particular instructional materials in the school.

The district will establish a process and timeline for regularly determining and considering whether the textbooks and other instructional materials are available through online resources that enable students with print disabilities to receive the textbooks and instructional materials free of charge.

Library media will be selected by the district librarians with input from the teaching staff. Recommended supplementary materials and library media resources will also be free of racial, national origin, religious, disability, age, marital status, sexual orientation, gender expression, gender identity or sexual bias; contain appropriate readability levels; support the district’s adopted curriculum content; provide for ease of teacher use; be attractive and durable and be purchased at a reasonable cost.

The superintendent is instructed to develop procedures to implement this policy.
