Contractor Background Checks

Rev 3 (3/16/18)

Background: In an effort to ensure the safety of children at Beaverton Schools, ALL Contractors, including, but not limited to, trade contractors, material vendors, professional service providers, architects or engineers, subcontractors or sub-consultants, retained by the District shall complete a criminal background check prior to beginning work. Furthermore, Contractors shall adhere to the following rules while on BSD campuses. The District may remove any Contractors as defined above, from any BSD property, for not complying with these requirements.

Background Checking Procedure:

1. Contractor shall complete a Confidential Criminal Background Check Certification Form (copy attached) on each employee and provide the information to a third-party background checking company (see list of possible companies on Page 3).
 - a. Background checks need to cover the past 7 years and include offenses registered in the federal, county, sex offender and the Department of Corrections lists.
 - b. Fingerprinting is left up to the discretion of the District, however not required in most instances.
 - c. An existing background check may qualify an employee for badging if:
 - i. The background check was conducted within the last year
 - ii. The background check was conducted in accordance with work for another public or private school district within the State of Oregon
 - iii. The background check covered the list of crimes rendering ineligibility as outlined on Page 2 of the Confidential Criminal Background Check Certification Form
 - iv. The employee has not taken up residency outside the State of Oregon since the time the background check was conducted
2. Once an employee of the Contractor passes the Criminal Background Check, Contractor will provide to the District a letter on company letterhead with a listing of these names.

NOTE: The District will not collect the background check certifications. However, the District reserves the right to request the background check certifications at any time.
3. After passing background checks, all Contractors and their employees are to be badged when onsite. Badges are to be prepared by the Contractor (template attached). Badges must include individual's legal name (not a nick-name), company name that they work for, location(s) that the Contractor will be working, and a recent (within the last 4 years) photo of the individual. Background checks are valid for one year.

Building Security Rules:

1. The Contractor shall enforce strict discipline and good order among the Contractor's employees, subcontractors and other persons carrying out the contract while on District property. The District may require that the Contractor's employee or other person carrying out the contract be immediately removed from the project site and District property if the District finds them to be objectionable.
2. If onsite during school hours/during school session, Contractor will check-in with the main office. Anytime a visit of this nature is planned it should be scheduled with the District Project Manager at least 24 hours in advance. If system shut downs are required notice of at least 48 hours is required.

3. A District representative must be present onsite when a Contractor is performing work within an existing school facility. This representative will deactivate the security system upon arrival and re-activate it upon leaving. This process **cannot** be performed by a Contractor or anyone other than a District representative.
4. Contractor will provide badges for each employee and person carrying out the contract. These badges are to be visible and worn at all time when onsite.
5. The Contractor shall have a Responsible Party (i.e., superintendent, foreman, supervisor) onsite at all times during any work being performed by either their own forces or that of their subcontractors.
6. The Responsible Party shall check-in with the District representative upon arrival. They will check-out with the District representative when all work is complete, Contractor personnel has left, and the area is secure.
7. The Responsible Party shall be accountable for the security in area where work is being performed as well as ingress and egress to that area.
8. A District representative will be issued a building key to allow access to any areas where work is being performed.
9. The Contractor shall maintain a daily log defining what areas within the building were accessed by Contractor and Subcontractor personnel.
10. Each of the Contractor's employees, subcontractors' employees and principals/owner involved at site may, at the option of the District, be subject to a security check, at any time, through the District Security Department, Beaverton Police Department, Washington County Sheriff's Department or other venue.
