SUBMITTED	NAME	EMAIL	ELEMENTARY	MIDDLE	HIGH	OPTIONS	COMMENTS
03/01/2020 10:34 AM	Aishwarya Sreenivasan	aishsreeni@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset		Walkability. It is the need of the day need of the hour. Every middle school student living within 1.5 miles radius of the middle walks or bikes to school. The school district has various programs to increase walkability. The Beaverton Safe Routes to School (SRTS) Program is all about creating safe, convenient, and fun opportunities for youth to walk and roll (bike, scooter, skateboard and bus) to and from schools. This is important for the health and safety of our kids and to foster the creation of livable, vibrant communities. SRTS programs increase physical activity and improve unsafe walking and bicycling conditions on routes to and from school and throughout the community. Whether you walk or bike a few blocks to school or close to a mile, your active commute is good for your heart, you whole body and it[?]'s invigorating and fun! With colder winter weather, children spend less time playing outside, but a nice brisk walk or bike ride to school will help achieve their recommended 60 minutes of moderate exercise every day. This will help prevent childhood obesity and supports healthy bones. Walking and biking to school is also a great way for kids to get the physical activity needed for healthy minds. Kids who are more physically active have better academic performance. Studies are beginning to show that exposure to nature and free outdoor play can reduce stress and relieve ADHD symptoms. If that isn[?]t enough to get you out of your car, think about the air quality around a school when dozens of parents sit in idling cars while their children jump out. Air pollution has contributed to childhood asthma rates doubling between 1980 and the mid-1990s. Asthma rates remain at historically high levels and cause 14 million missed school days every year. Walking and biking to school is healthy for kids, healthy for communities, and healthy for the planet. Given so much drive from BSD to encourage walking and Biking why do we have to bus 300 plus kids who walk or bike from Jacob Wismer and Findley neighborhoods to Stoller middle school to Timberland? It almost using 6 buses. This isn't cost effective. It disrupts the communities. Goes against the environment. Why, just to satisfy one big North Bethany community who are making a big deal and putting up a big show. As a Jacob Wismer parent all I request is every kid from Jacob Wismer needs to attend Stoller. Walk and bike to their middle school. Please understand this logic and give the due importance to walkability.
03/01/2020 8:58 PM	Aminath Nazhath	nazu03@gmail.com	Rock Creek Elem	Stoller MS	Westview		Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately.
03/01/2020 6:51 PM	Anand	Anandk5@outlook.com	Springville K-8	Stoller MS			Hi committee and Mr. Sparks, I feel the meeting on 1/25, the Meeting was focused a lot on Summa program, I see that summa students constitute 4% of BSD student population. Let[?]'s focus equitably on regular students too. I think the working map on 1/25 meets all the JC objectives. I see that multiple communities are open to that map. This map keeps communities together with minimal disruption. By taking Summa from stoller and moving all of Findlay to Timberland, it relives Stoller and feeds Timberland at the same time. If we move Summa, all of Findley out of Stoller, the remaining JW, Sato and Springville schools will attain 88% of permanent capacity in 2021. Please do the right thing and think about all the students of BSD and not just few programs like SUMMA. Regards, Anand
03/01/2020 9:13 PM	Anil K Sreeramsetty	anilkumar246@yahoo.com	Oak Hills Elem	Meadow Park MS	Sunset		Dear Advisory Committee, Thank you SO MUCH for voting to support Oak Hills (East) joining Timberland along with others!!! Moving East Oak Hills-Sunset bound students to Timberland will not only end isolation at Sunset but also certainly reduce the depression among the east oak hills kids. As parents our kid[?]'s emotional health matters and once again thank you for voting to move Oak Hills (East) to Timberland middle school. We will be so relieved if, when the dust settles. Thank you!
03/01/2020 12:05 AM	Ann G	Ann.g2613@gmail.com	Springville K-8	Stoller MS	Westview		Based on actual numbers, Springville, JW and Sato will bring Stoller at 88% capacity in 2021 when Summa is moved elsewhere.
03/01/2020 12:06 AM	Ann G	Ann.g2613@gmail.com	Springville K-8	Stoller MS	Westview		BSD projection numbers for 2025 shows bigger growth for Springville and Sato despite Springville actually already built out and allows not much room for growth. Completely incorrect premise.
03/01/2020 4:27 PM	Anshul	Anshul.us@gmail.com	Springville K-8	Stoller MS	Westview		Dear committee, Please go forward with the Feb 25th workmap for Stoller while moving out SUMMA . You will find out very quickly that you can either make a much richer Stoller with ripple effects across the entire district. Or, you can accept the Feb 25th workmap, with a MARGINALLY over permanent capacity Stoller in 2025, still SIGNIFICANTLY UNDER total capacity after which the population drops, even based on the most aggressive OVER projections. This is not even remotely comparable to today's situation. Today Stoller is OVER TOTAL CAPACITY. I know there are concerns about JW High School feeders but I do want to point out that there will still be OVER 220 Sunset kids in Stoller AFTER SUMMA MOVES OUT . It is by no means comparable to the OH-E situation and must not be used to unravel the maps.
03/01/2020 5:18 PM	Anshul	Anshul.us@gmail.com	Springville K-8	Stoller MS	Westview		Dear committee, Thank you for your hard work and dedication.....this task is not an easy one for anybody ....Please do the right thing and go forward with the Feb 25th workmap for Stoller while moving out SUMMA . It all depends on what the BSD stands for...EQUITY VS WALKABILITY . If walkability is more important to BSD, then Springville will be made the sacrificial lamb and LOSE MORE THAN 30% of FRL at Stoller which is a big deal in this affluent area... If EQUITY is more important then we have to sacrifice a bit of walkability and options program..... Please do the right thing and do not make Springville kids commute more than 5 miles to their home middle School while keeping other areas at Stoller which have multiple MS options closer than what North Bethany has.
03/01/2020 10:32 AM	arunk	arun_koroth@yahoo.com	Springville K-8	Stoller MS	Westview		KEEP COMMUNITIES TOGETHER. SUPPORT MAP A - Sato and Springville students and families make up the North Bethany community. Splitting some of Springville to go to Five Oaks disrupts this community as we currently share the same parks, trails, and local activities. Stoller is the only neighborhood area middle school for North Bethany students. There are 14 OTHER Elementary schools which are closer to Five oaks compared to Springville. Rock Creek is naturally tied to Springville and Bethany; it should not be removed from both. If any portion of Rock Creek is removed from Springville, it should be placed with Bethany. PLEASE DONT GIVE PRIORITY TO SUMMA SOVER NEIGHBORHOOD STUDENTS - The Summa program should go where the highest concentration of feeding school kids go in order to minimize splits. The entire North Summa program should go to Timberland with Findley who constitute 40% of Summa students in Stoller.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:51 PM	Ashley L	ashley.tx67@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset	Mr Sparks & Committee Members, While I trust your professionalism and unbiasedness in evaluating all data and options while drawing correct boundary, I am extremely concerned and stressed by how Springville community is pushing the direction that committee takes.. I am more concerned for the tone of the conversation, political tools being used and &#34;US&#34; vs &#34;THEM&#34; narrative which clearly does not show ANY sense of empathy. I've lived in Pirates Park neighborhood and I know how many time that neighborhood has been tossed around in each re-boundary processes thus far. From JW to SPV.. SPV to Sato and now again impact on MS boundary. PLEASE REMEMBER, our neighborhood is CLOSELY CONNECTED TO ARBOR VIEW AND BETHANY CREEK FALLS.. SATO is fairly new school and we are still seeing our kids forming their long term friendships, going in classes together, pre and post school activities, talent shows.. you name it. Like any other parent, I would also like to see my kid growing with same friends from ES to MS to HS. Please do not disturb our community yet again.. we are not pawns. Our kids deserve same sense of bonding and opportunities like any other community kids.
03/01/2020 8:02 PM	Ashwini	ashbait@outlook.com	Springville K-8	Stoller MS	Westview	CURRENTLY PROPOSED MAP IS FAIR TO MOST STUDENTS! LETS NOT MOVE BACKWARDS!There are a lot of different factors that decide why students have to travel outside their communities for school. Some factors to be taken into consideration are1) Are there other options or should we have kids go to school in a completely different community?For Springville - yes, there certainly are other options (vs moving them to Five Oaks)2) Will moving a bunch of students create a ripple effect? (If currently proposed map is changed and Springville sent down south)Yes, if Springville is moved to make room for SUMMA at Stoller, there will be a ripple effect across the district3) Are we taking into consideration high school feeder patterns? Yes, with the currently proposed map most feeder patterns are kept intact. There are some impacted students and we can find solutions for small pockets of students who will be isolated. Jacob Wismer will have over 200 students feeding into Sunset and so I don[?]t consider them one of these small pockets of isolated students4) Are proposed solutions equitable?Yes, the current map is equitable to most extent(The argument that students who get on a bus can travel extra because they are already on a bus is NOT an equitable argument)5) Do they provide social, racial, and economic diversity in the schools?Yes, having Springville feed into Stoller helps with balance. If not, Stoller ends up being a privileged school6) Do the numbers work out?Overall, yes, they do. They work when 2021 numbers are taken into consideration, AND when 2027 numbers are taken into consideration. They are over (based on PROJECTIONS and not ACTUAL ENROLLMENT) in 2025 but balance out over the next 2 years (as projected)7) Should we hurt the entire district because ONE school is projected to be over capacity by a few students for a couple of years? The logical answer is NO!
03/01/2020 10:27 AM	asidhu	sidhu.arun@comcast.net	Springville K-8	Stoller MS	Westview	RECONSIDER MAP Aa) It avoids splitting of communities.b) It avoids Springville having to travel the maximum distance along the unsafest route to Five Oaksc) BSD will also gain in transportation costs by keeping Springville at Stoller.d) It will further help to move the entire SUMMA from Stoller to Timberland.e) Rockcreek will need to travel to Meadow park but they will have Bethany Elem with them. Also SUMMAis also there in Meadow park.f)JW , SATO and Springville minus SUMMA meets thE objective in 2025 and is totally sustainable in 2025.g) The 2025 projections doesnt seem accurate. There is no further development in SpringvilleThe estimate FOR 2025 NEED FURTHER CLARIFICATION. IN LAST BUDGET REVIEW MEETING BSD INDICATED THAT NUMBER OF STUDENTS ACROSS BSD HAVE BEEN STABLE LAST YEAR AND TEND TO DROP IN FUTURE DUE TO SMALLER MEMBERS PER HOUSEHOLD IN NEW GEN.So it doesnt clarify how does the Stoller increase drastically in 2025. There is no new growth in Springville. Also there are houses with more than 3-4 rooms but with single kid.PLEASE DONT GIVE PRIORITY TO SUMMA SOVER NEIGHBORHOOD STUDENTS - The Summa program should go where the highest concentration of feeding school kids go in order to minimize splits. The entire North Summa program should go to Timberland with Findley who constitute 40% of Summa students in Stoller.H) The Jacob wismer to Sunset feeder at Stoller is about 18% or over 200 kids in the Feb25th MAP A. Its not a single digit percentage as MISREPRESENTED by one of the Jacob Wismer testimonies. Its well in line with high school feeders across the district.
03/01/2020 5:11 PM	asidhu	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	KEEP COMMUNITIES TOGETHER. SUPPORT MAP A - Sato and Springville students and families make up the North Bethany community. Splitting some of Springville to go to Five Oaks disrupts this community as we currently share the same parks, trails, and local activities. Stoller is the only neighborhood area middle school for North Bethany students. There are 14 OTHER Elementary schools which are closer to Five oaks compared to Springville. Rock Creek is naturally tied to Springville and Bethany; it should not be removed from both. If any portion of Rock Creek is removed from Springville, it should be placed with Bethany. PLEASE DONT GIVE PRIORITY TO SUMMA SOVER NEIGHBORHOOD STUDENTS - The Summa program should go where the highest concentration of feeding school kids go in order to minimize splits. The entire North Summa program should go to Timberland with Findley who constitute 40% of Summa students in Stoller.
03/01/2020 5:16 PM	asidhu	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	MOVING STOLLER TO Five OAKS ONLY INCREASES TRANSPORTATION COSTS.ITS UNDESRIABLE.MAP C doesn't meet 1& 2 objectives. Ojective 1- fill Timberland. MAP C utilizes Timberlandonly at 74%. As per MAP C, Stoller is at 100% in 2021 which doesn't meet objective 2.Below analysis is by transporation in BSD site.Springville to Stoller \$30,487 Springville to Five Oaks \$56,071 ----NOTE THIS AMOUNTBSD will be losing \$25,584 by moving Springville to Five oaks instead of StollerMoving Findley to Timberland instead of Stoller hardly makes much difference in transportation costs.BSD built 64 million dolar Timberland facility to relieve middle school congestion.So ideally the kids closest to it should move to Timberland. Move entire Findley and SUMMAstudents to Timberland. It doesn't make sense to have Springville students travel sucha huge distance to Five Oaks, just to make way for some SUMMA students and concerns about walkability.SUMMA is just an OPTIONAL program not an absolute necessity. Preference should be given to regularprograms first.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:18 PM	asidhu	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	BRING ON MAP ALe us not lose sight of the top two objectives. Fill Timberland and Reduce Stoller.While reducing stoller, please don't punish Springville, which has only one middle school under4 miles.Jacob wismer has two options Stoller and Five oaks under 4 miles.Findley has five options under 4 miles Stoller, Timberland, Five Oaks, Cedar park and Meadow park.Terra Linda has 4 options under 2.5 miles. Stoller, Timberland, Five oaks, Meadow park.Here is the distrance of various elementary schools to Five Oaks.Springville is at THE BOTTOM WITH THE HIGHEST DISTANCE.THERE ARE MORE THAN 14 ELEMANTARY SCHOOLS WHICH ARE CLOSER TOFIVE OAKS THAN SPRINGVILLE.Moving SUMMA out of an overcrowded schools is important. Findley has the most SUMMA students so itmakes sense to move it to Timberland. If SUMMA remains in Stoller it will never meet the objective of 90%.Also moving SUMMA out of Stoller will improve the economic diversity in Stoller.
03/01/2020 5:21 PM	asidhu	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	MAPA SHOULD BE REVISTED. FOCUS ON 90% FOR 2021 NOT 2025IN fEb25TH MEETING we had 8 members voting for MAP A. Towards end of meeting there was an additional member (Abdul) who also preferred MAP A. Considering that the total vote count will be 9. So request committeeto focus on MAP A rather than thinking of different maps at this stage.There was a highly misleading statement in last meeting on Stoller overcrowding amd how teh Feb25thmap gets back to the same number of general education students as today. Stollere today has four halls.Red, Orange, Blue and Green. General education children just get 3 halls, and summa kids getorange hall. Once summa is moved, they will have 4 halls and much less overcrowding even with2025 numbers.The Jacob wismer to Sunset feeder at Stoller is about 18% or over 200 kids in the Feb25th MAP A. Its not a single digit percentage as MISREPRESENTED by one of the Jacob Wismer testimonies. Its well in line with high school feeders across the district. BSD PLEASE TAKE NOTE OF THIS.
03/01/2020 9:20 PM	asn	arpitananda@yahoo.com	Jacob Wismer Elem	Stoller MS		Hi, i just surprised how this boundary change things and fights going on to this community.why BSD is not doing that making a circle keeping Stoller in the center.Another thing is when people took new house they knew it they cant fit in old school.so why they are fighting with us who are living in the old house for school only. SPV AND SATO will go to STOLLER AND WEST VIEW then WHY JACOB WISMER STUDENT GO to SUNSET?why they will be sufferer without the friends? NEW COMMUNITY will get all the good opportunities.What is our/our kids fault?BSD should judge to keep in mind all the situations. i am not sure they will read all the comments or not.but hoping for proper justice.
03/01/2020 10:33 AM	avijay	vijayanarun@hotmail.com	Springville K-8	Stoller MS	Westview	THERE ARE MORE THAN 14 ELEMANTARY SCHOOLS WHICH ARE CLOSER TOFIVE OAKS THAN SPRINGVILLE.I will be very strange to expect Springville to travelsuch a huge distance, hop around 14 TRAFFIC SIGNAL STOPS, have leadtime for bus stop pick ups, spend time on 185th road which is designatedas the highest prone accident route in Washingtom county.Even Findley and Jacob Wismer are closer to Five Oaks via Kaiser Road andthey don't have to travel thru 185th.BELOW SHOW THE VARIOUS SCHOOLS THAT ARE CLOSER TO FIVE OAKS RATHER THAN SPRINGVILLE.SPRINGVILLE IS AT TEHY BOTTOM WITH THE MAXIMUM DISTANCEElmonica ElemMcKinley Elem Beaver Acres ElemOak Hills Elem Rock Creek Elem Terra Linda ElemBethany Elem Barnes Elem Aloha Hubel.C Tobias ElemJACOB WISMER Elem FINDLEY Elem William walker Elem Bonny slope ElemSPRINGVILLE Elem
03/01/2020 5:32 PM	avijay	vijayanarun@hotmail.com	Springville K-8	Stoller MS	Westview	MOVING STOLLER TO Five OAKS ONLY INCREASES TRANSPORTATION COSTS.ITS UNDESIRABLE.MAP C doesn't meet 1& 2 objectives. Ojective 1- fill Timberland. MAP C utilizes Timberlandonly at 74%. As per MAP C, Stoller is at 100% in 2021 which doesn't meet objective 2.Below analysis is by transporation in BSD site.Springville to Stoller \$30,487 Springville to Five Oaks \$56,071 ----NOTE THIS AMOUNTBSD will be losing \$25,584 by moving Springville to Five oaks instead of StollerFindley to Stoller \$22,454 Findley to Timberland \$ 30,742 . Increase of \$8288Even if you net out the difference(\$25584- \$8288) BSD will save more than \$17000by moving Springville to Stoller.
03/01/2020 9:10 PM	Baoyan Liang	Liang.b.y1974@gmail.com	Rock Creek Elem	Stoller MS	Westview	Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don[?]t carry all the burden of this boundary change.
03/01/2020 12:00 AM	Ben Levy	zydecolevy@yahoo.com	Springville K-8	Stoller MS	Westview	Can Stoller handle 114% permanent capacity in 2025? As it turns out, this would be 328 students less than Stoller has this year, when it is operating at 144% permanent capacity and 113% total capacity (so it now has even more kids than the portables can hold). We are proposing reducing that number considerably- far below total capacity and only a few classrooms over permanent capacity for a few years in the worst case scenario. At least 12 district schools are operating above permanent capacity this year, and many more use portables even if they are operating below permanent capacity because it suits the needs of their school. Considering the alternative is to slice apart communities, we will live with 114%.
03/01/2020 5:06 PM	Ben Levy	zydecolevy@yahoo.com	Springville K-8	Stoller MS	Westview	STICK WITH THE 2/25 WORKING MAP: According to the 2/25 map, with Summa out, Jacob Wismer will still have around 220 Sunset-bound kids at Stoller. This is very different from the situation Oak Hills East had at Meadow. Do not equate the two.
03/01/2020 5:32 PM	Ben Levy	zydecolevy@yahoo.com	Springville K-8	Stoller MS	Westview	SUMMA IS NOT THE PRIORITY FOR ANY LOCATION: Why is the committee spending so much time talking about Summa? Set it to the side. Don't move a bunch of kids around just to force Summa at one location. Let Teaching and Learning decide the best location once we have neighborhood kids in schools in close proximity. Once that is done, they can look at the best options and take it from there.
03/01/2020 11:00 AM	BIKRAM PATNAIK	bikramsiya@gmail.com	Findley Elem	Stoller MS	Sunset	From &#34;Sustainability,Walkability & Fitness pov&#34;; Findley should feed into Stoller Middle. From Arbor Estates, our community, Stoller is just 5 min walk &lt; 0.3 m. It makes no sense from any point of view to move to Timberland.We are teaching our kids sustainability and walkability in school and doing the just the opposite. BikramArbor Estates

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:09 PM	Bradley Wright	rtnin3@yahoo.com	Jacob Wismer Elem	Stoller MS	Sunset		StollerSumma4FairFeeders..Current proposals to provide capacity at Stoller most not come at the cost of feeder patterns for neighborhood families and walkability. Stoller feeder patterns should provide a consistent path for neighborhood children to continue to Sunset. Summa participation at JW and Findley point to keeping Summa at Stoller to allow children to attend their neighborhood schools rather than busing them out and busing in Westview bound families. Why double transportation costs when safe, walkable and sustainable options are literally right in the neighborhood? Furthermore, the student body composition would retain the balanced backgrounds that BSD seeks to create in schools.Previous maps, like Map C2.0 or C2.1provided a reasonable basis for balanced feeder pattern for neighborhood kids with consideration to the challenges feeding elementary schools of OH East and JW.StollerSumma4FairFeeders.
03/01/2020 5:18 PM	Bradley Wright	rtnin3@yahoo.com	Jacob Wismer Elem	Stoller MS	Sunset		Capacity4NeighborhoodKids..My family doesn[?]t participate in the Summa program. Healthy feeder patterns should allow BSD children consistency from ES through HS. Capacity for Stoller should not displace neighborhood children, regular enrollees or Summa, in favor of busing in communities from further away. A large number of Summa participants live in walkable Stoller neighborhoods. Maintaining Summa at Stoller reduces transportation complications and provides a consistent Sunset feeder pattern. Thank you for conscientiously balancing capacity, costs and cohesive feeder patterns for our neighborhood children..Capacity4NeighborhoodKids
03/01/2020 5:36 PM	Carol Ben-Ari	carolcheslek@gmail.com	Rock Creek Elem				It is so incredibly disheartening and distressing to see once again map proposals that not only kick Rock Creek out of our neighborhood and legacy school, Stoller, but send us as the only northern school to Five Oaks! From the beginning of this process we have been united and adamant that this is unacceptable and will solve no problems for the district and will only perpetuate the inequity in this district. STOP proposing maps that send Rock Creek alone to Five Oaks!!
03/01/2020 1:11 PM	Chandana	chandanabvrl@gmail.com	Jacob Wismer Elem	Stoller MS			Please include JW summa students to Stoller considering walkability to Stoller from Arbor view JW students.
03/01/2020 10:05 PM	Cindy Waller	Cwaller@yahoo.com	Barnes Elem		Westview		Would it be possible to make Stoller a completely Westview feeding school and the new middleSchool a complete Sunset feeder?
03/01/2020 10:43 PM	DA	sagittareansrock@gmail.com		Stoller MS			I applaud the Committee members for even willing to vote to split large schools to make the utilization work at Stoller, it could not have been easy to vote in a public forum. However, the insistence of some Committee members to transfer SUMMA out of Stoller, just so that we can bring down the utilization numbers is negligent, given the fact that Stoller minus SUMMA today is about ~1233 kids and the map on the table from 2/25 takes us right back to ~1231 kids at Stoller minus SUMMA. Pray, tell me, how is SUMMA the problem. Why must SUMMA kids from JW especially, that are 100% walkable, be penalized?
03/01/2020 12:27 AM	David Lee	ralliant_kei@hotmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	Dear committee, thank you for your time to taking serious considerations into making this middle school boundary adjustment perfect for every school. I want to remind you that BSD district original planned to build up to two new middle schools for the northern part of the district. However only one Timberland is built. It is not too bad consider the grow in North district is slowing down. As long as we keep Timberland original objective to relief Rock Creek, Springville, Jacob, Sato, Findley and split the 5 elementary among Stoller and Timberland and keeping walkers at their walking school then the overcrowding situation will be resolved. Furthermore please note Stoller is the largest middle school with large portable capacity. Aiming 100pct for Stoller in 2025 although sounds wise yet it is not completely necessary. Just look at how many student it is housing today at Stoller 160pct although crowded I did not hear major teacher to student ratio that would otherwise affect student performance. Stoller students are receiving great education every day. On the other hand FiveOak is not expandable due to landscape it cannot and will never have portable capacity ever. The school is already overcrowded and unless you introduce major disruption to FiveOak such as moving AHP to Mountainview or major FiveOak turnover, FiveOak is not going to be able to absorb any Bethany schools in any sustainable way because FiveOak has a capacity that is fixed. Also transportation from Bethany area to FiveOak is a huge concern for safety due to the high accident rates on 185th. Please think through all the map scenarios with caring for kids in mind when you suggest a change to the current Feb25 work map which many people think it is great as is and meeting most of the public consensus and projections by the PSU studies.
03/01/2020 6:44 AM	Don Olson	donolson1277@hotmail.com	Jacob Wismer Elem	Stoller MS	Sunset		I watched the video of the last meeting and I have a few comments (I live in Arbor Heights). Most importantly I do not know where the idea that the walk zone on the East side of Jacob Wismer (JW) is difficult comes from. It is not a problem for my kids, they cut through the designated paved path to and through Dogwood Park. Compared to the walk issues of the elementary kids crossing Laidlaw road from Oak Ridge subdivision I would say the current situation would be much preferred. I would assume that Oak Ridge, K-5, would be bused to JW due to the crossing of Laidlaw, this would increase costs. Why split JW AND Findley for no net benefit, numbers wise, makes no sense to me. Oak Ridge and East JW are about the same size. Also what about the other areas east and west of Oak Ridge north of Bronson Creek, what happens to these students. I would favor the three school no split solution for Stoller with the removal of Summa from Stoller, if the numbers work out. 8 to 8 tie vote is getting close. It was mentioned of an &#34;out of the box&#34; solution of having all &#34;Sunset&#34; JW students move to Timberland, to handle future growth. This solution would be better if changed to make all JW students feed Sunset none to Westview then change JW to Timberland? I am not as concerned with which middle school I am assigned to and more concerned with keeping the kids from elementary school together. This would NOT be my preferred solution but better than splitting JW.As a note: I am a parent in the situation where my kids may be eligible for Summa. If it came down to Summa or Stoller I would lean to Stoller so my kids could stay with their friends, keep that in mind when looking at the numbers. Thank You, for the committees work, I know it is not going to be easy, Don
03/01/2020 9:15 PM	Ehoy Lawless Lewerenz	Lawlesse1@hormail.com	Rock Creek Elem	Stoller MS	Westview		Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don[?]t carry all the burden of this boundary change.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:53 PM	Eric Creatives	Eric.CreativesLL889@yahoo.com	Springville K-8	Stoller MS	Westview		Mr Sparks & Committee MembersI would like to bring this to your attention that Shackelford Rd is planned to be connected to NV 185th road in near future. This will provide excellent access for transportation buses to neighborhoods in North and East of Springville ES. These neighborhoods are new unlike Arbor Oaks, there are still more hoses being built. I have closed a deal to buy a home in Noyes homes and would be happy to have my kids being bused through VERY SAFE NW 185h across US 26. No I did not wear red t-shirt nor did I approached TV channels.. I have been employee of a school district elsewhere in Oregon and I understand and appreciate how difficult it is for the district to balance all these parameters. All the fuss that my future community has created is overpowering, over the top and borderline selfish. Have you ever thought of this? What does each Elementary school parents are stressing? Answer lies there how selfish SPV has been.. Lets try.. (1) Jacob Wismer - they want their kids to stay together in feeder pattern.. avoid splits (2) Findley - they want their kids to be able to walk to school (3) Rock Creek - probably the most matured display.. they want to stay together with their neighbors irrespective of which school they fed into (4) Oak Hills - they want to resolve the abrupt and abnormal split (5) Bethany - They want to stay together with their neighbors (6) Sato - they want clear feeder pattern up to HS without split (7) Springville - they are fighting for extra 10 mins ride to school.. YES ONLY 10 MINS EXTRA.. I DRIVE THROUGH EXACT SAME ROAD EVERY DAY ... Please think clearly, please do not be threatened or bullied by a community or news channels or attorneys or any sort of power shows .. and take right decision for students, neighborhoods at large and tax payers .. Thank you
03/01/2020 11:25 AM	EricLing	ericlingy@hotmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	Dear BSD,The most recent school boundary adjustment plan has one option to separate majority Springville K-8 students from the rest of Bethany students and shuttle them all the way the Five Oaks. The logic behind this scheme is to save cost by scarifying these students[?] commute time. At the same time, BSD still needs to shuttle SUMA students in this area to a different school. This definitely will increase BSD cost. This is not logical at all. Thanks,Eric
03/01/2020 3:36 PM	Eve	every999@yahoo.com	Findley Elem	Stoller MS	Sunset		In the last meeting the committee was considering moving the neighborhood right across Stoller to JW. It is a great idea to make sure walkability is maintained. However, there are many neighborhoods that walk to Stoller. Our neighborhood is called Oak meadows and our house is about half a mile from Stoller along a safe THPRD path. Our older child goes to Stoller today and there is no bus service to Stoller. We walk to Stoller everyday. Moving oakridge to JW does not solve the problem. What about other neighbor hoods that are in close walking distances. Please keep all the walking Stoller neighborhoods in Stoller, even if Findley has to be split as a last resort.
03/01/2020 3:23 PM	Gauri Trivedi	Gauritri@gmail.com	Springville K-8	Stoller MS	Westview		Dear Committee Members,I could see the hesitation in approving the last working map at the previous meeting. Here are the most important things to be considered :1) it is the best map for all communities - so far no other map has come as close to keeping Communities together as this one2) diversity and economics are nicely balanced out3) 14% is not a huge number of students worth breaking communities over, believe me, the communities will forever be grateful that they could be together instead of the other way round.4) with the slight change of moving East oak hills to Timberland, this map will be the best possible solutions under the given circumstances.5) Please get this done with so that communities can get over this uncertainty, animosity and fighting over boundaries. Insecurities and the thought of losing their neighbors is bringing out the worst in people, we just want to go back to being friends again.
03/01/2020 8:48 AM	Giles	Baochanggiles@gmail.com	Springville K-8	Stoller MS	Westview		Dear AC members,Thank you for all your hard work! Please consider the facts below before you make final decisions:- All JW, SATO AND SPRINGVILLE with NO SUMMA will make Stoller MS a 88% fill rate in 2021- objective 2 met right there- 2025 estimation has errors as most of Springville community is already complete BUT Projection says even more growth for SPV than SATO.... totally incorrect... 2025 might be a NON EXISTENT ISSUE IN REALITY-Findley has the most SUMMA STUDENTS so it makes sense to move it to Timberland. The concentration of JW SUMMA is also in the east area which is also considerably close to Timberland. So moving summa out of Stoller is a reasonable solution.
03/01/2020 9:00 PM	Gregory Lawless	lawlessgf@hotmail.com	Rock Creek Elem	Stoller MS	Westview		Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don[?]t carry all the burden of this boundary change.
03/01/2020 9:11 PM	Haoquan Zhang	Liang.b.y1974@gmail.com	Rock Creek Elem	Stoller MS	Westview		Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don[?]t carry all the burden of this boundary change.
03/01/2020 2:17 PM	Hari	Abc@yahoo.com	Findley Elem				Hi there, my kids go to findley elementary and we live in a walking distance to stoller. Few facts here:1. About ~ 150 findley kids are within a walking distance to stoller2. Farthest findley home is closer than closest spv home to stoller3. Walkable findley community is not only oakridge estates. Communities east of stoller that include JW and findley communities have safe walkpaths from within the community to stoller that dont need to touch laidlaw. Kids have been using these paths forever.4.Findley and jacob wismer are expected to have a gradual decline in numbers in the next 10 years. 5.SpV and sato are 2 huge exponentially growing giants6. Feeder pattern from MS to HS is better with findley and Jacob wismer together in stoller30% summa kids that go to stoller today live within a walking distance to stoller Hence, considering proximity, safety, environment, mix of growing and declining communities, reducing ES splits, better feeder pattern from MS to HS, it would make sense to have Findley &#43; jacob wismer &#43; sato &#43; summa in stoller.This is what makes sense and is more practical to most of us. Please consider this. Findley and jacob wismer are going to see a decline in next 10 years and combining these with growing giant sato will keep stoller at a balance.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:07 PM	HARISH CHEGONDI	harish.chegondi@gmail.com	Springville K-8				Dear committee, Please do the right thing, and go forward with the Feb 25th workmap with minimal changes. You will find out very quickly that you can either make a much richer Stoller with ripple effects across the entire district. Or, you can accept the Feb 25th workmap, with a marginally over permanent capacity Stoller in 2025, still under total capacity, still 400 students less than 2020, after which the population drops, even based on the most aggressive projections. I know there are concerns about JW Middle- & High School feeders and that is valid. But I do want to point out that there will still be over 220 Sunset kids in Stoller. It is by no means comparable to the OH-E situation and must not be used to unravel the maps.
03/01/2020 11:42 PM	Jagadevi	Jagadevi.chikkalli@gmail.com					Bring back map C, Maximize walkability, send springville to five oaks to solve overcrowding at stoller
03/01/2020 10:39 AM	Jagadevi Chikkalli	jagadevi.chikkalli@gmail.com					Only option to fix overcrowding issue at Stoller is trimming far and new and growing communities. Moving part of JW to TL and Oakridge to Stoller is not a solution to fix problem, its just a trade off.
03/01/2020 10:27 AM	Jamie Williams	jamie.stewart.williams@gmail.com	Rock Creek Elem				It seems like the committee will not agree unless at least a portion of Springville is sent to Five Oaks and at least a portion of Summa remains at Stoller. The below plan accomplishes that. The plan also accommodates Spanish immersion populations and does not segregate lesser advantaged students; the most disadvantaged Springville students are kept at Stoller. Cedar Park would receive SUMMA and could absorb some portion of Summa from Whitford to reduce Whitford overpopulation and bolster Cedar Park population. Five Oaks will become a 100% Westview feeder and the portions of Springville and Rock Creek removed from Stoller will be moved to an academically acceptable alternative. Since Five Oaks is the closest school other than Stoller to both Springville and Rock Creek, no undue or expensive travel is required. South Bethany schools are all kept together with Westview feeders. Meadow Park[]s Spanish immersion program can accommodate Aloha-Hubor and Barnes. A portion of Chehalem is moved to Meadow Park to provide more Beaverton feeding students to accompany Barnes. If Sunset feeding from Barnes is phased out, Meadow Park feeds only to Aloha and Beaverton. The loss of northern schools and Summa is compensated for with the addition of Rachel Carson. Mountain View poverty is mitigated by Aloha-Hubor remaining outside its boundary. Stoller[]s overpopulation is mitigated by sending a growing portion of Springville away. As such, Summa can remain in some capacity while Cedar Park and Timberland are absorbing portions of Summa that are now outside of Stoller[]s boundary. For a contiguous map, the northern portion of Rock Creek can remain at Stoller while the portions of Springville with zero population on the west and northwest can also move to Five Oaks. It is equally acceptable for all of Rock Creek to leave Stoller if contiguity is not required. The apartments are not sent alone away from Springville; half the school (the more disadvantaged southern half) remains at Stoller. Oak Hills is accommodated by its eastern portion going with Terra Linda to Timberland. Findley is accommodating by all of its school (including Summa students) staying together and moving to Timberland. Below is the plan that can accomplish all of your goals: Cedar Park MS: Ridgewood ESSUMMA Meadow Park (Cedar Park, Five Oaks, Meadow Park new boundaries) West TV ES William Walker ES Conestoga MS: Greenway ES Hiteon ES McKay ES (Current Conestoga MS Population) Nancy Ryles ES (South of Scholls Ferry/Trails) Scholls Heights ES Five Oaks MS: Bethany ES Elmonica ES (Westview HS Population) McKinley ES (Westview HS Population) North Springville K-8 (4 grid codes with populations of 55, 24, 59 and 36, 2 grid codes west of 185th and all of PCC) Oak Hills ES (Westview HS Population) South Rock Creek ES (or all of Rock Creek ES, both will fit) Highland Park MS: Chehalem ES/ Mountain Side Cooper Mountain ES Fir Grove ES Nancy Ryles ES (North of Scholls Ferry/Trails) Sexton Mountain ES Meadow Park MS: Aloha-Huber Park K-8 Barnes ES Chehalem ES (Beaverton HS Population) Elmonica ES (Aloha HS Population) McKinley ES (Aloha HS Population) Rachel Carson Mountain View MS: Beaver Acres ES Errol Hassell ES Hazeldale ES Kinnaman ES Stoller MS Jacob Wismer ES North Rock Creek ES (if continuity with Springville 185th apartments is desired) Sato ES South/East Springville K-8 (all remaining grid codes not mentioned above) SUMMA Stoller (Stoller Boundary) Timberland MS: Bonny Slope ES Cedar Mill ES Findley ES Oak Hills ES (Sunset HS Population) SUMMA Timberland (Timberland Boundary) Terra Linda ES Whitford MS McKay ES (Current Whitford MS Population) Montclair ES Raleigh Hills K-8 Raleigh Park ESSUMMA Whitford (Highland Park, Conestoga, Whitford) Vose ES
03/01/2020 10:01 PM	Jane Watts	Jane.watts@gmail.com			Westview		The Springville community was split when Sato opened with the knowledge that the students from both schools would be reunited at Stoller. Springville also recently lost their middle school option. So if Springville goes to Five Oaks or Meadow Park they have now lost their closest neighbors and former schoolmates as well as their home middle school.
03/01/2020 2:25 PM	Jaya S	jaya72@gmail.com	Findley Elem	Stoller MS	Sunset		I am trying to think straight here and would encourage committee to do so as well. (a) What do students need? &#61; access to education, safe school buildings and commutes, fair and balanced student body composition so that they can learn lessons of equality and inclusivity, opportunity to grow with preferably same neighborhood students while going from ES to MS to HS (b) What would the BSD appreciate? &#61; A school boundary with proper and correct feeder pattern, optimum or close to optimum student body composition, capacity utilization, special education programs, least impact on free and reduced lunch community AND ON TOP OF THAT keeping budget in check Now as you can see the most logical talking points which will adhere to both sets of thinking points are (A1) Neighborhood school, meaning WALKABILITY IS THE MOST IMPORTANT ASPECT.. ignoring this would be extremely irresponsible and immature (A2) Budget dollars should be used on enhancing school safety and security, hiring more staff in lets say pre or post school programs, special language programs, special education needs, buying equipments .. NOT TO BE WASTED ON PREVENTABLE, UNREASONABLE AND UNNECESSARY TRANSPORTATION COST I urge the committee to take collective firm stand on this.. These are the key stake holders (1) Students - who are our first stake holders, they're ok to travel 10 mins more if they are assured of education options, programs and equipments in safe environment.. rather than going in neighborhood school and realizing district doesn't have money left to run some of these programs that excites them. Remember, its the parents who make big deal about this bringing in their own ego and sense of &#34;win&#34; (2) Tax payers - who pay money for the school safety, learning programs, options, equipments and environment.. NOT to be wasted on gas and there by adding to global warming.. Yes even students themselves learn this and they would appreciate it being followed (3) WALKABILITY.. WALKABILITY... WALKABILITY.. it doesn't make sense to send neighborhood kids to far off school My proposal is to split Springville in such a way that Stoller's free-reduced lunch and demography numbers do not get impacted. Most of neighborhood north and west of Brugger should go to same MS where Rock Creek is feeding into. ***** Remember that in no time Shackelford road is going to be connected to 185th providing excellent access to that neighborhood for school buses and reducing commute time even further. *****

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:49 PM	Jeremy B	jeremyb41@gmail.com	Springville K-8	Stoller MS	Westview	Compared to many, I am very new to this state. Moved in Springville boundary in spring of 2019. I have a high schooler, a middle schooler a kid attending elementary. I am part of volunteering and PTO activities in Westview HS, Stoller MS and Springville ES. Before coming here I have lived in AZ, TX and CA and have been through multiple such re-boundary sessions, I have even been part of boundary committee at two occasions in two different states. I have been part of email group, a few in person meetings and social media group all of these internal to Springville community. I will express what is DEEPLY CONCERNING me in the way Springville community has navigated this exercise thus far. There are MULTIPLE RED FLAGS and if I be fair to each and every student attending various BSD schools and for overall fairness of process, there are multiple wrongs that should not be entertained and encouraged among any community, for any activity, to take any stand.. let alone boundary exercise. (i) The overall tone of discussion is always &#34;us&#34; vs &#34;them&#34; and I do not endorse this tone in any public issue that is affecting multiple neighborhoods and communities (ii) LAWYER UP AND FIGHT has been the motto. It is shamelessly visible since late December at least. This is borderline BULLYING. The same exact behavior problem which parents would not encourage or tolerate among their kids, but here conveniently the same parents are using it to accomplish a selfish goal, disregarding rest of the community, rest of feeder schools, districts budget, walkability zones, demography, special programs and above all their own morale compass. (iii) The community has claimed that they have &#34;support&#34; from Findley, Rock Creek and Sato elementary schools but in reality there are only one or two friends whom they have convinced to speak up in favor of Springville. It would look like a treat tactic if we are talking about Frank Underwood of House Of Cards, but remember here we are talking about thousands of children and not just one community who feel more entitled to a school then the others (iv) Bus routes and commute times are clearly tested and shared by the transportation department, if you ask me I would rather want my middle schooler to be able to have better teachers, all programs and resources then worrying about 10 mins or less of extra commute time. (v) I understand and appreciate the constraints that the district has on the budget and how to wisely use the money. They would be put to better use if those dollars are spent on hiring teachers, buying equipments and supply, enhancing security of school, running a special program etc rather than spending on extra completely unnecessary routes just to accomodate Springville at Stoller and that too because a community is feeling entitled towards.. hiring lawyer, protesting, manipulating committee and inviting news channels to cry in front of camera like BSD is doing injustice to them, without worrying about any other impacted parties across the district. I have seen way more matured, just and inclusive parents body especially when their kids are in MS. I am extremely worried as to what sort of behavior committee and BSD at large is entertaining, encouraging and potentially rewarding.. MS and HS students discuss about the process in same language and tone which they see in their parents. I can bet, if you put bunch of MS and HS students across the district to discuss about boundary process and provide submittals to the superintendent, they would come up with BETTER SOLUTION WITHOUT BREAKING COMMUNITY AND NEIGHBORHOOD BONDS. Parents have lot to learn.
03/01/2020 7:43 AM	Jeremy Johnson	doublej13@att.net	Rock Creek Elem			The students of Rock Creek Elementary deserve to be sent to a middle school that also has some of their neighbors in attendance. Rock Creek Elementary kids have after school activities and go to church and play with kids from Bethany Elementary, Springville, Oak Hills Elementary and Sato Elementary. Regardless of which Middle School, we need to send two other neighboring elementary schools with Rock Creek Elementary.
03/01/2020 10:34 AM	jithin	jrathod81@gmail.com	Springville K-8	Stoller MS	Westview	MAPA SHOULD BE REVISTED. FOCUS ON 90% FOR 2021 NOT 2025IN FEB25TH MEETING we had 8 members voting for MAP A. Towards end of meeting there was an additional member (Abdul) who also preferred MAP A. Considering that the total vote count will be 9. So request committeeto focus on MAP A rather than thinking of different maps at this stage.a) The Feb25 MAP A with summa moving to Timberland is the most balanced approach forStoller and Timberlandb) Springville, Sato and Jacob Wismer fit into Stoller in a long term &amp; sustainable manner declining after 2025.c) It avoids multiple community splits into elementary school splits. Has support across a large group of Findley, Sato, Springville and Rock Creek parents.d) Even with aggressive growth numbers, it shows modest growth to 2025 well under total capacity which will then declines and will get below permanent capacity.
03/01/2020 5:08 PM	jithin	jrathod81@gmail.com	Springville K-8	Stoller MS	Westview	BSD PLEASE NOTE THISThere was a highly misleading statement in last meeting on Stoller overcrowding amd how teh FEB25thmap gets back to the same number of general education students as today. Stollere today has four halls.Red, Orange, Blue and Green. General education children just get 3 halls, and summa kids getorange hall. Once summa is moved, they will have 4 halls and much less overcrowding even with2025 numbers.
03/01/2020 5:36 PM	jithin	jrathod81@gmail.com	Springville K-8	Stoller MS	Westview	SUPPORT MAP A2.0. COMMUNITY MATTERS, TRANSPORTATION COST BENEFITS Regardless of how long it take to go there, Springville is GEOGRAPHICALLY SEPERATED from Five Oaks by PCC, 7 Dees Nursery, a large mass of farmland, PCC, Albertsons shopping center, HIGHWAY, TANASBOURNE. Geographically Springville and Five Oaks can't be the same community.If Springville students have to go to Five oaks, it would be the longest distance a middle school student has to travel.
03/01/2020 9:17 PM	Jyothi	Nagajyothi.cse@gmail.com	Findley Elem	Stoller MS	Sunset	DO NOT split Findley. Keep Findley together. Kids can maintain k-12 friendships. Stoller or TL keep them together.
03/01/2020 9:46 AM	Karen Locke	Windrockk@frontier.com	Rock Creek Elem	Stoller MS	Westview	Rock creek needs to move with Bethany, ideally to FIVE Oaks, assuming Five Oaks is not over capacity. Please do not move Rock Creek to an over crowded school.Meeting school capacity is important and not overcrowding just to appease neighborhoods. It would be better to split up elementary schools now to ensure middle school capacities are not exceeded, rather than show as over capacity. Moving Summa from Stoller should be happening. MeadowPark is in the middle of the district and should be considered for option school programs.Also please ensure the current 6th graders stay in their current middle school!!!!
03/01/2020 9:12 PM	Kexin Zhang	484888@bsd48.org	Rock Creek Elem	Stoller MS	Westview	Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. ## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 11:11 AM	Kyoungeun Kim	pkkylie@hotmail.com	Jacob Wismer Elem				I am an Arbor Heights resident. My two boys are going to Jacob Wismer ES now. I love the new suggestion Arbor Heights neighborhood volunteer to move out and join Findley ES. When this happens Findley ES kids will go to Timberline- Sunset with the same group of friends without being split.
03/01/2020 2:08 PM	Liheng Liu	lihengliu001@gmail.com		Stoller MS			Please keep JW and Findley in Stoller. Move new construction communities to Five Oaks, meanwhile, BSD should put on a plan to make Five Oaks a great school. Before the beginning of this middle school boundary adjustment, BSD confirmed that this boundary change will not affect elementary school and high school boundary, will not affect SUMMA. Now, for the unreasonable battle, BSD is likely going to change everything. It makes no sense to move Findley and hundreds of SUMMA kids out of their so closed neighborhood middle school and redo the school boundary change in 2025. The growing wealthy new constructions from north side will make Stoller overcrowded again. 1. BSD should understand and have confidence:BSD and JW, Findley families built a great Stoller. Wealthy new construction communities also have the ability to make Five Oaks great. BSD can put on a plan to support this and make it happen. This will also benefit the current Five Oaks community. BSD and Mr. Grotting needs show long term vision and leadership to try to make Timberland and Five Oaks as great as Stoller, rather then make communities fight again and again. 2. BSD needs to explain, why new construction community kids cannot be bused to Five Oaks. Under last meeting's proposal, BSD will need to bus new construction community kids to Stoller, bus Findley kids to Timberland, and bus hundreds of JW, Sato and SPV SUMMA kids to Timberland. 3. Don't mention that the current MS boundary change process has been going very well for couple months. We live very close to JW and Stoller. We don't even received any letter from BSD to inform us the boundary change. I guess that most likely BSD thought that our area will not be affected so they did not even send mail to us. I don't remember when BSD started to say &#34;everything can be put on the table&#34;; I fully believe that this was not a trap created intensionally by BSD for JW boundary families. However, now the result is: it is a trap for JW families.
03/01/2020 10:02 AM	Lori Near	Lori.near@yahoo.com	Jacob Wismer Elem	Stoller MS	Sunset		Dear Committee,I remain hopeful that this process will lead to a boundary solution that meets the objectives, and offers benefits for ALL BSD students and staff. As a JW parent of 3, all who will be directly affected by the recommendations of this committee, I urge you to please consider ALL of the relevant and proven data that has been provided. Here are a few critical points:1. Walkability matters - children in the walk zone should NOT be sent on a bus. It simply makes no common sense whatsoever. My point is NOT because my home is in that walk zone, but because it offers benefits to ALL of our district. Walkability means less incremental buses on our roads. It means funds for buses and bus drivers can be kept in the classrooms with our students and teachers where they belong. For a district that had a deficit of close to 34 million dollars less than a year ago, spending dollars unnecessarily is irresponsible for all. Preserve walkability and keep funds in the classrooms. 2. The majority of Summa students live in the walk zone to Stoller. Please keep them at Stoller. Consider students already being bused to Stoller today. Having them on that same bus for a few minutes longer could offer benefits for ALL other students across the district and bring the overcrowding at Stoller down to a point where meeting the objectives can be possible. Keep in mind that re-routing existing buses doesn't add new drivers or additional buses. It merely reroutes those same buses and drivers. This adds little additional cost and keeps budget money where it belongs. 3. Feeding patterns matter and should be preserved in any way possible. Leaving any community with a split feeder at under 20 percent is damaging and unnecessary. Please consider these facts in your decisions. Please look at the size of our two biggest growing elementary schools - SPV and Sato - and know that they just simply cannot feed the same Middle School. Thank you for your efforts.
03/01/2020 4:22 PM	Madhu	mrangar@yahoo.com	Springville K-8				Dear committee,Please do the right thing, and go forward with the Feb 25th workmap with minimal changes. You will find out very quickly that you can either make a much richer Stoller with ripple effects across the entire district. Or, you can accept the Feb 25th workmap, with a marginally over permanent capacity Stoller in 2025, still under total capacity, still 400 students less than 2020, after which the population drops, even based on the most aggressive projections. I know there are concerns about JW Middle-&gt;High School feeders and that is valid. But I do want to point out that there will still be over 220 Sunset kids in Stoller. It is by no means comparable to the OH-E situation and must not be used to unravel the maps.Thanks,Madhu
03/01/2020 3:16 PM	MadhuR	Mrangar@yahoo.com	Springville K-8				Dear committee, I am left walking away with the impression from the last few meetings that Jacob Wismer and Summa are the center of the Universe and everything else revolves around that. I hope we return to prioritizing regular education for all neighborhood kids. It would be a pity if we went back to multiple split maps just to figure out to satiate Jacob Wismer's desire for local Summa which appears to get way more airtime than it deserves. The eagerness to split other communities to do only what is best for Jacob Wismer Summa keeps many parents awake at night.
03/01/2020 5:41 PM	Marie Knapp	lmknapp@gmail.com	Springville K-8	Stoller MS	Westview		Please keep in mind that the longest CURRENT distance from an elementary to its assigned middle school now is under 4 miles. DO NOT SEND SPRINGVILLE all the way to Five Oaks, at 4.3 miles - longer than any other distance in the district. Many Springville kids would be traveling 5 miles or more. This would be unprecedented for a distance from an elementary to middle school in BSD and would affect a large number of students.
03/01/2020 5:52 PM	Marie Knapp	lmknapp@gmail.com	Springville K-8	Stoller MS	Westview		I'm concerned with how much attention Summa is getting at these boundary meetings. I was especially concerned by a proposal voiced by the committee to keep only Summa students in Stoller and move non-Summa students from the same area to a school further away. This seems to send a strange message to students that Summa is the priority and if they can't make the cut, they will need to go elsewhere.
03/01/2020 6:00 PM	Marie Knapp	lmknapp@gmail.com	Springville K-8	Stoller MS	Westview		I'm also concerned with the over-focus on Stoller at these boundary meetings. Stoller is a great school- but is not so special that it cannot handle ever using even one portable classroom in fives years, when we expect students at other schools across the district to use them regularly. I do not understand why it is okay to have other buildings above capacity, and then state that Stoller must remain under permanent capacity forever. (This would also mean that all existing portables would just sit unused at that location while we move more students further away.) Why should Stoller be given that kind of priority?

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 9:03 PM	Mary Lynn Klafka	pdxthree@comcast.net	Rock Creek Elem	Stoller MS	Westview	Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don't carry all the burden of this boundary change.
03/01/2020 12:28 PM	Meenakshi Dewan	meenakshi_dara@yahoo.com	Jacob Wismer Elem	Stoller MS	Sunset	Dear committee members,Please get Map C back again for feeder patterns! The current map leaves only 17% to feed Sunset from JW and it has been a big problem for Osk Hilks in the past! Now that you plan to fix Oak Hilks issue by moving the east Oak Hills to Timberland, please take actions to not make it an issue for JW! Please preserve walk ability! Save on tax dollars!! Thanks
03/01/2020 1:02 AM	Min Pan-Lee	minni_pan@hotmail.com	Springville K-8	Stoller MS	Westview	According to BSD projection in 2021, JW has 395 regular middle school students and 85 Summa students. Springville has 424 regular middle school students and 40 Summa students. In order to have the 85 summa kids stay in Stoller, 424 regular student are move to Five oaks which us 5 miles away and 40 Summa kids to Cedar Park which is 7 miles away. Where is the equity? Not all kids can go to summa, and not all middle school has summa. Transferring 464 kids for 85 kids who MAY walk to schoold is too over, isn't it? Please keep Springville in Stoller. Otherwise the 40 summa kids will be super lonely in middle school. JW has the best location already, dont be too greedy!!!
03/01/2020 2:35 PM	Mr Stevens	r.stevens6767@yahoo.com	Bethany Elem	Stoller MS	Westview	I am relatively new to this town. I was surprised and shocked to see how one community can use tools, measures, tone and attitude to convey their very selfish point of view behind facade of "we love all Bethany"; .. I have a kid in HS and another soon to be in MS. Both of them understands what boundary procedure is, what politics is, what good and bad behavior is.. what it means to be united, inclusive and equal. I am having hard time finding evidences among communities up north demonstrating good behavior which shows empathy, unity, inclusivity and equality. I even heard from my neighbors that a particular community has hired Attorney to push the committee into "right" direction. This is not how any democratic process work. If BSD is indeed allowing this, it is borderline being bullied by Attorney. Should we the other communities who represent us via such comments and public testimony (as opposed to protests and inviting news reporters) worry? Could you please put up a public comment to confirm (a) whether hiring an attorney is legal for any neighborhoods? (b) Are there any Attorneys in contact with BSD? If so which community do they represent? (c) How would you ensure that committee and eventually the superintendent would not be influenced by what a trained Attorney can do vs the rest of normal people. All we - the normal people - care about is access to education, opportunity for our kids to grow with same neighborhood friends.
03/01/2020 9:06 PM	Olesya Baykalova	olesyabaykal@gmail.com	Rock Creek Elem	Stoller MS	Westview	Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don't carry all the burden of this boundary change.
03/01/2020 9:48 PM	P Telang	priyatelang@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset	JW's claim of single digit percentage of Sunset-feeding students at Stoller MS would be correct. The data is very simple. There are 182 students in the JW-Sunset area, based on the maps provided by BSD. Sunset comprises of 2100 students. ~50% of our Sunset-bound JW kids would follow Summa to a new MS if the program were to leave, leaving our JW-Sunset bound kids as a meager ~8% AT STOLLER. If the logic is that these kids will re-unite and be friends once more in HS, think again. That said, by this logic, any ES split that gets reunited again in HS should be on the table in fairness to all the schools currently on the discussion table. In addition, if any feeder pattern in the district is as terrible to this, then every attempt should be made to fix it, NOT DO IT AGAIN, this is unacceptable.
03/01/2020 9:14 PM	Paul Lewerenz	Paul.lewerenz@oregonfirst.com	Rock Creek Elem	Stoller MS	Westview	Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. 03/01/2020 5:08 PM	Penny Zheng	zhengwanyun@gmail.com	Springville K-8			Dear Committee Member, With the uncertainty and concern about the Coronavirus, I strongly suggest we cancel Mar 12 meeting. The new case cannot be identified with sources, indicating the possibility of community spread. I suggest we move on Feb 25 map. I understand that some committee members are concerned about 2025 projection and I would like to point out that this map meets the objective of 90% of capacity in 2021. The 2025 projection is overstated. Springville is already done with construction now and Sato will also complete its construction by 2025, andI doubt the projection for SATO growth is overstated and I would hope BSD can provide more details and rationale regarding the projection. Even with the current projection, since 2025 is at its peak the students enrollment will decreased, we can use portables to solve this temporary issue. This is not perfect, as no other map is, but Feb 25 map meets 2021 objectives with most limited split communities. We should move forward with Map Feb 25.Best Regards,
03/01/2020 5:27 PM	Penny Zheng	zhengwanyun@gmail.com	Springville K-8			Dear Committee Members,I understand that some committee members have concerns of 2025 projection. Springville and Sato are the growth areas that feed to Stoller with the growth number of about 300 students. However, JW is foretasted to decrease by 100 students. If SUMMA and Findley are removed from Stoller, Stoller will meet its capacity in 2025.
03/01/2020 5:40 PM	Penny Zheng	zhengwanyun@gmail.com	Springville K-8			Dear Committee Members,Since portables are acceptable at some schools, I think it should be OK to have portables at Stoller as well. I am glad to see Mr. Spark also thinks that's an option. Then please move ahead with Feb 25 Map. The capacity at 2025 will be at its peak and the students number will decline. As a parent, I would rather choose portables than having my kids transport for over 90 minutes every day. Please consider our options. Thank you!

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 8:58 AM	Pooja	Pooja928@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset	ISB	Dear Committee Members - At the 2/25 meeting, it seemed the only thing your group was able to achieve a majority of agreement on, is that it would be acceptable to consider a split within Springville if any inroads towards reducing the overcrowding at Stoller can happen. The only way they can co-exist is if we are willing to split other schools, bus hundreds more students who are NOT currently being bused, allow 40 students to 1 teacher, keep students and teachers in portables, directly take tax dollars out of the classrooms and onto the roads for increased and NEW transportation. I cannot imagine ANYONE believing these would be acceptable results of this boundary adjustment process. This is NOT about JW parents trying to kick anyone out of Stoller, nor is it about creating an elite school. This is purely about ALL children in ALL schools across the district being offered a safe, positive learning experience. I encourage all of our hard working and dedicated committee members to please consider ALL of the data that has been presented to you. Walkability has significant advantages for every member of the communities we live in. It reduces traffic, offers environmental benefits and gives students additional opportunities to interact with neighboring friends. Some difficult decisions need to be made to reach the objectives, but I remain hopeful that together we can achieve sensible, positive outcomes for all.
03/01/2020 6:40 PM	Prashanth Nair	prash7e7@gmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	Dear committee, Thank you for your hard work and dedication.....this task is not an easy one for anybody ....Please do the right thing and go forward with the Feb 25th workmap for Stoller while moving out SUMMA . It all depends on what the BSD stands for...EQUITY VS WALKABILITY . If walkability is more important to BSD, then Springville will be made the sacrificial lamb and LOSE MORE THAN 30% of FRL at Stoller which is a big deal in this affluent area... If EQUITY is more important then we have to sacrifice a bit of walkability and options program..... Please do the right thing and do not make Springville kids commute more than 5 miles to their home middle School while keeping other areas at Stoller which have multiple MS options closer than what North Bethany has.
03/01/2020 6:44 PM	Prashanth Nair	prash7e7@gmail.com	Springville K-8	Stoller MS	Westview		Dear committee, Please do the right thing, and go forward with the Feb 25th workmap with minimal changes. You will find out very quickly that you can either make a much richer Stoller with ripple effects across the entire district. Or, you can accept the Feb 25th workmap, with a marginally over permanent capacity Stoller in 2025, still under total capacity, still 400 students less than 2020, after which the population drops, even based on the most aggressive projections. I know there are concerns about JW Middle-&gt;High School feeders and that is valid. But I do want to point out that there will still be over 220 Sunset kids in Stoller. It is by no means comparable to the OH-E situation and must not be used to unravel the maps.
03/01/2020 3:49 PM	Preeju Philip	preejususan@gmail.com	Springville K-8	Stoller MS	Westview		A lot of kids at Springville live even north of the school making it more than five miles to Five Oaks.... I am scared at the very thought that , that commute is even being considered.....we all know that the 22 min bus trials were not even close to reality .... please please do not let our kids commute FURTHER AND LONGER just because we are bussed today. That does not seem equitable at all.... In the last meeting, one AC member said that Springville should be split just because Springville is the furthest from Stoller..... but we are also the northernmost..... we are also the farthest from five Oaks too..... so how can Moving Springville to Five Oaks be justified is beyond me..... Please keep Jacob Wismer, Sato , and Springville at Stoller while moving summa out to probably Timberland or The next proximal school... this puts us at 88% permanent capacity at Stoller in 2021. It fulfills both objective one and objective two... In 2025 Stoller Will totally be sustainable in this combination as well... The estimations our overboard as we all have seen and option numbers are not being appropriately calculated as well in the maps...
03/01/2020 3:55 PM	Preeju Philip	preejususan@gmail.com	Springville K-8	Stoller MS	Westview		Springville to Westview in reality takes 18 minutes at 7 AM in the morning in non-traffic hours...( this is based on the current routes) One can only imagine how long it would take for Springville to commute to five Oaks IN REALITY. We have also seen in the comments how loong it takes for Oakhills to reach Meadow Park for Bethany to reach Meadow Park..... etc..... Please understand that this commute will not only be horrible for the Springville kids... But it will also make Springville kids an island in the north Bethany community where they go for afterschool , sports activities and all other activities as well .
03/01/2020 4:02 PM	Preeju Philip	preejususan@gmail.com	Springville K-8	Stoller MS	Westview		As one committee member had correctly pointed out, that some parts of Springville has the most poverty area in Stoller... Taking Springville out will only make the economic diversity in Stoller WORSE..... The February 25 working map which had all of Springville in Stoller shows good economic diversity numbers for Stoller....Moving summa out will only help getting the FRL numbers to a better position... The February 25 Working Map meets objective one and objective two and better FLR ratio at Stoller WITHOUT splitting any schools ... Please vote for this combination in Stoller..... Jacob Wismer plus Sato Plus Springville add Stoller
03/01/2020 4:06 PM	Preeju Philip	preejususan@gmail.com	Springville K-8	Stoller MS	Westview		A lot of kids at Springville live even north of the school making it more than five miles to Five Oaks.... I am scared at the very thought that , that commute is even being considered.....we all know that the 22 min bus trials were not even close to reality .... please please do not let our kids commute FURTHER AND LONGER just because we are bussed today. That does not seem equitable at all.... In the last meeting, one AC member said that Springville should be split just because Springville is the furthest from Stoller..... but we are also the northernmost..... we are also the farthest from five Oaks too..... so how can Moving Springville to Five Oaks be justified is beyond me..... Please keep Jacob Wismer, Sato , and Springville at Stoller while moving summa out to probably Timberland or The next proximal school... this puts us at 88% permanent capacity at Stoller in 2021. It fulfills both objective one and objective two... In 2025 Stoller Will totally be sustainable in this combination as well... The estimations our overboard as we all have seen and option numbers are not being appropriately calculated as well in the maps...
03/01/2020 4:14 PM	Preeju Philip	preejususan@gmail.com	Springville K-8	Stoller MS	Westview		The utilization numbers might look a TAD bit prettier in 2025 when it is JW plus sato plus Findley.... but JW, Findley, and Sato is a pretty elite school in terms of demographics. In this combination FRL falls to 7%. Doesn't seem like a huge drop until we realize going from 10% to 7% is a 30% drop which is pretty significant in this area. South Springville represents some of the lowest income area in Stoller. JW plus Springville plus Sato is 88% permanent capacity in 2021. OBJECTIVE 2 MET RIGHT THERE without splitting any schools in that area ....2025 is totally sustainable and ABSOLUTELY WILL NOT CALL FOR A BOUNDARY ADJUSTMENT even with the aggressive over projections... After 2025 enrollments decline and we get back to under hundred percent permanent utilization

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 6:28 PM	Preeju Philip	preejususan@gmail.com	Springville K-8	Stoller MS	Westview		Even WITHOUT SUMMA IN STOLLER, there will be 222 sunset bound kids from Stoller from Jacob Wismer... This is from the Net resident grid code map that was released. Jacob Wismer[?]s feeder pattern is like a lot of schools across BSD AND TOTALLY UNLIKE EAST OAKHILLS SUNSET SITUATION WHERE ONLY less than 25 kids go to Sunset each yearStoller to Sunset feeder even without SUMMA looks healthy .... this SHOULD NOT a reason to Split up School nor a REASON TO LOSE SIGNIFICANT FRL RATIO AT STOLLER
03/01/2020 10:31 PM	Priya Mani	heypriya@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset		WHY SHOULD THE COMMITTEE BE LOOKING TO SOLVE THE OVERCROWDING? It was heartening to see the Advisory Committee acknowledge at the last meeting that our two growing communities with the largest growth projected to happen in the very near future, simply CANNOT be placed in the same MS. If at all there was a majority consensus among the AC, it was towards splitting Springville towards making progress in reducing the overcrowding at Stoller, in the map as it currently stands. I think its really important that this fact be repeated over and over again to understand the gravity of this issue, especially for those members that aren[?]t in agreement with the magnitude of growth in North Bethany. I am an educator myself and have experienced firsthand, the negative impact on teaching and learning at an overcrowded school. Currently, Stoller has about ~1230 kids (if you were to subtract the kids in the Summa program~326). THE 2/25 MAP ON THE TABLE PUTS US RIGHT BACK AT 1231 STUDENTS IN 2025, EVEN WITH SUMMA REMOVED (to what purpose?). This fact cannot be denied!
03/01/2020 3:06 PM	Ram R	rramak@yahoo.com	Jacob Wismer Elem	Stoller MS	Sunset		Walkability matters and saves dollars. Let[?]s spend our tax dollars prudently and not unnecessarily bus kids who can walk to school. PI keep Jacob Wismer In stoller 100%, to keep high school Feeder patterns Intact with both summa and non-summa and preserve walkability as 100% of JW is in walkable range of stoller.
03/01/2020 9:05 PM	Richard Klafka	pdxthree@comcast.net	Rock Creek Elem	Stoller MS	Westview		Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don[?]t carry all the burden of this boundary change.
03/01/2020 5:31 PM	Riddhima Pareek	riddhimapareek@gmail.com	Springville K-8	Stoller MS	Westview	Springville K-8	Having an ESTIMATE of 114% in five years is better than splitting up communities now. Remember- the goal was 90% for Stoller in 2021, and we had that with the 2/25 working map
03/01/2020 7:07 PM	Ryan Martin	Forlexington@gmail.com	Rock Creek Elem	Stoller MS	Westview		Most of Rock Creek has accepted that there is not enough room for us at Stoller. What we cannot accept is being moved to a new school without a neighbor. Please keep Rock Creek with Bethany or Springville.Rock Creek kids also deserve some special consideration regarding legacy status, which has been ignored so far, since current maps still have Stoller overcrowded. At this time, Rock Creek kids are the only kids being sent to a new, established school in the middle of their middle school career.Findley kids will go to a new school, but all the kids will be new to Timberland, so it is a level playing field. JW, Sato, Springville kids (at least at this point) will be staying at their MS—Stoller—so they do not have to get adjusted to a new school. OF the current Stoller-feeding elementary schools, only RC will leave Stoller and go to a new school. Extreme care should be taken to help with this difficult transition—but better yet would be to allow legacy status for this small group of students, to ensure that the most turbulent time of their adolescence is not unnecessarily disrupted, when it does not need to be.
03/01/2020 10:20 AM	Sam	Sa@yahoo.com	Findley Elem				My kids go to findley and we live in a walking distance east of stoller. We are extension of Jw community and we have safe backroads to stoller frm within the community. The committee has falsely stated that we have no walk path which is not true. It does not make sense to throw kids frm walkable communities on a bus to bring in folks in a bus frm other communities. Please give walkability first priority. When it comes to emergency situations, proximity is so important. Kids feel safe to walk to their neighborhood school with community friends rather than go on a far to a far off school. Above all this also improves feeder pattern from MS to HS for sunset HS.Thank you for your time.
03/01/2020 3:26 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview		A question for Committee Members: will you want your kid to commute more than 5 miles to attend middle school? Being thrown out from your community? If not, remember Springville kids.
03/01/2020 5:10 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview		Dear committee members and BSD,Please do the right thing, and select the Feb 25th workmap with minimal changes. You will find out very quickly that you can either make a much richer Stoller with ripple effects across the entire district. Or, you can approve the Feb 25th workmap, with a marginally over permanent capacity Stoller in 2025, still under total capacity, still, 400 students less than 2020, after which the population drops, even based on the most aggressive projections. I know there are concerns about JW Middle-&gt;High School feeders and that is valid. But I do want to point out that there will still be over 220 Sunset kids in Stoller. It is by no means similar to the OH-E situation and must not be used to unravel the maps.
03/01/2020 5:17 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS			Dear Committee Members,I could see the hesitation in approving the last working map at the previous meeting. Here are the most important things to be considered :1) it is the best map for all communities - so far no other map has come as close to keeping Communities together as this one2) diversity and economics are nicely balanced out. 3) 14% in 2025 is not a huge number of students worth breaking communities over. That too, projecting on empty lots. BOARD OBJECTIVE IS TO MEET 2021 TARGET which the current working map meets. Believe me, the communities will forever be grateful that they could be together instead of the other way round.4) with the slight change of moving East oak hills to Timberland, this map will be the best possible solutions under the given circumstances.5) Please get this done with so that communities can get over this uncertainty, animosity and fighting over boundaries. Insecurities and the thought of losing their neighbors is bringing out the worst in people, we just want to go back to being friends again.
03/01/2020 5:20 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview		Springville MS kids should not be bused all the way for no fault of theirs.PLEASE do not uproot all or portions of Springville from its North Bethany community.
03/01/2020 5:21 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview		UNITED BETHANY VOICES :We are a large group of Springville, Sato, Rock Creek and Findley parents who strongly support the Feb 25th workmap. This is the most balanced path forward for ourkids and our communities. Feb 25th Map brings many Communities Together as it is providing a very Workable Solution for most of the concerns Communities have.Thanks Committee for bringing forward this Map.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 5:22 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview	We realize that this map is not perfect, but nothing ever is, and this is the most balanced path going forward with broad support across a large group of northern families. We need to understand that all of us have to sacrifice something for the greater good. Jacob Wismer is not ready to sacrifice anything. Jacob Wismer wants walkability, Jacob Wismer wants Summa in Stoller, Jacob Wismer wants Findley in Stoller. Jacob Wismer's parents need to understand they are not getting split and have walkability to Stoller. If we discard the current map, multiple northern schools will be SPLIT. This final working map provides the most optimal path forward, given all the difficult constraints. We all hope that the committee and the superintendent will move forward with the Feb 25th workmap with minimal changes.
03/01/2020 5:23 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview	Do not split elementary schools. Springville, Sato, Findley, Rock Creek and Oak Hills have all been shown split in various maps proposed by the committee or BSD. Studies have consistently shown that minimizing transitions results in better academic performance and emotional health for children. We are strongly supportive of the current Feb 25th working map which reduces split.
03/01/2020 5:24 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS		Thanks again for the work of the volunteers on the committee and BSD staff during this boundary process. Springville families appreciate the comments from a few committee members during the February 25th meeting that seem to understand the need to keep communities together, specifically keeping Springville students at Stoller which is the closest middle school in their North Bethany neighborhood. Some committee members voiced their opinion that we should make the simplest, most straightforward changes in order to cause the least disruption, which would be moving all Summa students and all Findley students to Timberland making room for all of Sato, Springville, and Jacob Wismer students at Stoller. These moves would cause less elementary school splits, and ensure neighborhood students go to their closest middle school.
03/01/2020 6:34 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview	I have seen comments from JW parents saying that without SUMMA, the feeder pattern would be challenging for JW kids. Even WITHOUT SUMMA IN STOLLER, there will be 222 sunset bound kids from Stoller from Jacob Wismer... This is from the Net resident grid code map that was released. Jacob Wismer's feeder pattern is like a lot of schools across BSD AND TOTALLY UNLIKE EAST OAKHILLS SUNSET SITUATION WHERE ONLY less than 25 kids go to Sunset each year. MOVE SUMMA OUT OF STOLLER. KEEP NEIGHBORHOOD SCHOOLS SPV, SATO AND JW IN STOLLER. MAKE THE FEB 25TH WORKING MAP AS THE FINAL MAP WITH MINIMAL CHANGES.
03/01/2020 6:35 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview	Any map in whichever configuration, we have seen that if SUMMA stays in Stoller, we can NEVER MEET OBJECTIVE 2 of 90% . Moving SUMMA out of an overcrowded school is essential. MOVE SUMMA OUT OF STOLLER AND MOVE TO TIMBERLAND. KEEP SPRINGVILLE IN STOLLER.
03/01/2020 6:36 PM	SANJOY K SAHA	sanjoy123@gmail.com	Springville K-8	Stoller MS	Westview	JUST BECAUSE OUR KIDS RIDE THE BUS , it is not acceptable to make them commute FARTHEST and LONGEST in BSD... Springville to Five Oaks RIPS our kids away from our community. This is not happening with any other community. KEEP SPRINGVILLE IN STOLLER.
03/01/2020 6:59 PM	Sharon Zell	sharonzell@yahoo.com	Rock Creek Elem	Stoller MS	Westview	Please keep our small school in mind. It serves no purpose to split a small school like Rock Creek, other than to ensure that our students will have a harder time in school than they would otherwise. Splitting a small school like Rock Creek has a much more detrimental impact than splitting a large school. We keep discussing school communities like they are all the same—they are not. A school that sends 250 kids to middle school at a time is much different than a school that sends 500-600 at a time. Our school has suffered the indignity of being a football, kicked and passed back and forth from whatever middle school had a little space left over. Please find us a suitable home, one where our small population has other kids from our neighborhood—either Bethany or Springville.
03/01/2020 7:11 PM	Sharon Zell	sharonzell@yahoo.com	Rock Creek Elem	Stoller MS	Westview	While I have appreciated BSD seeking parent input, it is time for the district to be the grown up in the room. It is clear that the committee members have conflicting priorities—this is understandable. The district should be the ones establishing the priorities, and then the committee—which appears to be made of well-intentioned, hard working volunteers—could begin to make some progress. Without the guidance of the district about what it considers to be the most important priorities, the committee continues to go around and around, without any amount of progress. This process has been stressful to a great many people, needlessly so. BSD, establish clear priorities. Let the committee know that you expect those priorities to supercede their personal priorities, and then this whole process can be finished and we can all get on with our lives.
03/01/2020 2:25 PM	Shawli	shawli22@gmail.com	Springville K-8	Stoller MS	Westview	We realize that this map is not perfect, but nothing ever is, and this is the most balanced path going forward with broad support across a large group of northern families. These moves would cause less elementary school splits, and ensure neighborhood students go to their closest middle school.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 2:34 PM	shawli	shawli22@gmail.com	Springville K-8	Stoller MS	Westview	BSD has clearly said if we achieve 90% permanent capacity in 2021, they can effectively handle the growth for 2025. Please focus on achieving 2021 objective rather than go in circles to meet 2025 numbers which are at ITS BEST JUST LONG TERM ESTIMATES. Also, All these figures are just long term worst case estimates or predictions...WE REALLY MIGHT NOT HAVE AN ISSUE IN 2025. Why punish Springville and North Bethany for a problem we do not know will exist or not.JW , Sato and Springville (excluding SUMMA) IS 88% permanent Capacity in 2021 (as per a BSD provided map). IN 2025, even if we are a little above permanent capacity we will still probably be using just few portables. That WILL NOT CALL FOR ANOTHER BOUNDARY ADJUSTMENT. Isn't that better than ripping kids and neighborhoods apart? Our communities and students are better United than separated. Also our kids will feed into Westview, the most over crowded high school.
03/01/2020 2:37 PM	shawli	shawli22@gmail.com	Springville K-8	Stoller MS	Westview	Any map in whichever configuration, we have seen that if SUMMA stays in Stoller, we can NEVER MEET OBJECTIVE 2 of 90% . Moving SUMMA out of an overcrowded school is essential. MOVESUMMA OUT OF STOLLER AND MOVE TO TIMBERLAND. KEEP SPRINGVILLE IN STOLLER.
03/01/2020 2:44 PM	Shawli	shawli22@gmail.com	Springville K-8	Stoller MS	Westview	JUST BECAUSE OUR KIDS RIDE THE BUS , it is not acceptable to make them commute FARTHEST and LONGEST in BSD... Springville to Five Oaks RIPS our kids away from our community. This is not happening with any other community. KEEP SPRINGVILLE IN STOLLER.
03/01/2020 2:47 PM	Shawli	Shawli22@gmail.com	Springville K-8	Stoller MS	Westview	UNITED BETHANY VOICES :We are a large group of Springville, Sato, Rock Creek and Findley parents who strongly support the Feb 25th workmap. This is the most balanced path forward for ourkids and our communities. Feb 25th Map brings many Communities Together as it is providing a very Workable Solution for most of the concerns Communities have.Thanks Committee for bringing forward this Map.
03/01/2020 2:52 PM	shawli	shawli22@gmail.com	Springville K-8	Stoller MS	Westview	Springville MS kids should not be bused all the way for no fault of theirs. PLEASE do not uproot all or portions of Springville from its North Bethany community.
03/01/2020 2:58 PM	shawli	shawli22@gmail.com	Springville K-8	Stoller MS	Westview	Will any of the Committee Member want to Send Their Kid to Middle School 5 Miles Away? If the answer is no, remember about Springville kids. We are counting on you to represent Springville kids.
03/01/2020 6:28 PM	Shoba S	s_shobhana@hotmail.com				Dear Committee,I request you to please do the right thing and proceed with Feb 25th map. This map is the right thing to do to keep up the values of equity of Beaverton School District, and keeps even 2025 projects under TOTAL capacity. After 2020, the population drops even per the most aggressive projections. Regarding JW Middle--&gt;High School feeders, please remember that there will still be &gt;200 Sunset kids in Stoller and this by no means is comparable to the OH-E situation.Thank you.Very Concerned Mom
03/01/2020 5:03 PM	sidhua	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	Moving Springville and Rock creek to FO has ramifications that affect multiple schools.To reduce load on Five oaks, It likely splits McKinley and Elmonica. It pushes out Beaver Acres and Aloha Huber to Meadow park. It can overcrowd Meadow park,make it feed 3 high schools and causes the free lunch to skyrocket in Meadow park especiallyif Oak Hills is moved out as well.So better to consider MAP A to avoid all these cascading affects.Instead of making large sacle changes why can't some portion of Jacob Wismer moved toTimberland. It will serve multiple purposes. Proper utilization of Timerland. Also JWcomplaints about not being together with their friends will reduce and they will alsohave SUMMA at Timberland. Finally also reduce the load on STOLLER further more.
03/01/2020 5:10 PM	SIDHUA	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	MAP A WAY TO GO FORWARD. DONOT SPLIT COMMUNITIESa) It avoids splitting of communities.b) It avoids Springville having to travel the maximum distance along the unsafest route to Five Oaksc) BSD will also gain in transportation costs by keeping Springville at Stoller.d) It will further help to move the entire SUMMA from Stoller to Timberland.e) Rockcreek will need to travel to Meadow park but they will have Bethany Elem with them. Also SUMMAis also there in Meadow park.f)JW , SATO and Springville minus SUMMA meets thE objective in 2025 and is totally sustainable in 2025.g) The 2025 projections doesnt seem accurate. There is no further development in SpringvilleThe estimate FOR 2025 NEED FURTHER CLARIFICATION. IN LAST BUDGET REVIEW MEETING BSD INDICATED THAT NUMBER OF STUDENTS ACROSS BSD HAVE BEEN STABLE LAST YEAR AND TEND TO DROP IN FUTURE DUE TO SMALLER MEMBERS PER HOUSEHOLD IN NEW GEN.So it doesnt clarify how does the Stoller increase drastically in 2025. There is no new growth in Springville. Also there are houses with more than 3-4 rooms but with single kid.PLEASE DONT GIVE PRIORITY TO SUMMA SOVER NEIGHBORHOOD STUDENTS - The Summa program should go where the highest concentration of feeding school kids go in order to minimize splits. The entire North Summa program should go to Timberland with Findley who constitute 40% of Summa students in Stoller.H) The Jacob wismer to Sunset feeder at Stoller is about 18% or over 200 kids in the Feb25th MAP A. Its not a single digit percentage as MISREPRESENTED by one of the Jacob Wismer testimonies. Its well in line with high school feeders across the district.
03/01/2020 5:12 PM	sidhua	siddharth.arun11@gmail.com	Springville K-8	Stoller MS	Westview	STOLLER PROJECTIONS FOR 2025 IS INCORRECTIN fEB25TH MEETING we had 8 members voting for MAP A. Towards end of meeting there was an additional member (Abdul) who also preferred MAP A. Considering that the total vote count will be 9. So request committeeto focus on MAP A rather than thinking of different maps at this stage.There is no further growth in Springville. But BSD projection is showing even more growthfor Springville than SATO. How is that possible.Move Jacob wismer SUMMA to Timberland or full of Jacob wismer to Timberland.It will serve multiple purposes:a) Make proper utilization of new middle school Timberland which is ONE OF THE MAJOROBJECTIVE OF BSDb) Jacob wismer complaints about splits and their kids losing friends will be reduced, since they will be with Findely every time SUMMA or not.c) Reduce the load on Stoller.Just for an optional program, lof of time being wasted to talk about retaining it inStoller and going over walkability issues back and forth. Stoller capacity required is 90% for 2021 which is already met by MAP A. For 2025 theprojections are over estimated besides none of

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 7:34 PM	Sireesha Akula	sireesha.akula@gmail.com	Jacob Wismer Elem	Stoller MS	Sunset	Thank you BSD committee for your continued efforts to adjust middle school boundaries. In the last meeting on Feb 25th, I was glad to hear that the committee heard and realized loud and clear that all of JW, SATO, SPV donot fit into Stoller, doesn't solve overcrowding problem, and is not a sustainable choice. We prefer walk ability for many important reasons, health, environment and budget spent in classrooms for BSD communities. It is not a privilege for JW, it is the right thing to do as JW is located in the backyard of Stoller and all of JW students are walking zone. Location is the major static fact of any real estate, whether it is a house or a school. We shall fit in non- walking kids and schools as much as the school can take without overcrowding, but not at the expense of compromising student learning experience. I am one of such parent as mentioned in the last meeting who didn't get an invite to Parent teacher conference at Stoller last week. It simply is not possible for the teachers to manage when the schools get overcrowded. I am hoping committee can set an expectation to future boundary adjustments by making the right decision now, whether it is fitting newer neighborhoods to newer schools or asking newer neighborhoods to be open to go beyond the local neighborhood school when needed. Thanks a lot again for all the time you are putting in to bring in consensus.
03/01/2020 6:34 PM	Siva R	ramakris65@gmail.com				Dear Committee,Please prioritize regular education for middle school for all neighbor kids as per BSD values of equity and fairness. Please do not redraw the maps to solely cater to the needs of JW and Summa. Summa is &lt;10% of BSD but is taking up &gt;90% of discussions in all the meetings and is playing an outsized factor in voting/recommendations. As a lifelong BSD parent and supporter of BSD, I am really dismayed at the consistently one-sided arguments that seem to be on display in every meeting I attend.Please keep our faith and do the right thing by our kids -- keep North Bethany community together and do not bus our kids from SPV to far-away FO.Thanks.
03/01/2020 10:32 PM	Sridevi	sridevi.gullipalli@gmail.com	Springville K-8	Stoller MS	Westview	I left 25th meeting worrying/thinking/doubting, [?]if all the committee members have the same goal of finding common ground to solve Stoller issue?[?] ..... We Springville parents have been working so hard to make our voices heard all these days, but it felt like everything went in to drain.....Feb 25th map was created after hashing so many maps and possibilities..... Committee had one map in front of them to work with, instead of finding ways to make that map work, some of the committee members were too quick to either split SPV or move SPV completely out of north Bethany..... please don[?]t crush entire neighborhood[?]s hopes. As a committee member, there is a lot of affect to any word you utter or any vote you provide, please consider needs of majority over already privileged schools and neighborhoods.
03/01/2020 1:12 PM	Srinivas	annamaraju@gmail.com	Jacob Wismer Elem	Stoller MS		Please include JW summa students to Stoller considering walkability to Stoller from Arbor view JW students.
03/01/2020 9:14 PM	Subhashini Sreeramsetty	s_subhashini123@yahoo.com	Oak Hills Elem	Meadow Park MS	Sunset	Dear Committee,Thank you SO MUCH for voting to support Oak Hills (East) joining Timberland along with others!!! Moving East Oak Hills-Sunset bound students to Timberland will not only end isolation at Sunset but also certainly reduce the depression among the east oak hills kids. As parents our kid[?]s emotional health matters and once again thank you for voting to move Oak Hills (East) to Timberland middle school. We will be so relieved if, when the dust settles. Thank you!
03/01/2020 5:09 PM	Sujata G Thakurta	sujata_2000b@yahoo.com	Findley Elem			We live in Oakridge estates and a few minutes walk from Stoller. It makes no sense to bus kids that are within a true walking distance from Stoller (for example, Oakridge Estate Community) to be bused to Timberline which will truly increase commute time. It really is common sense to keep those that are in walking distance to their school attend that school. It is better for the kids, the environment and will save resources for BSD. Latest map does not serve our purpose. It is a ridiculous idea to push kids out of their neighborhood schools in order to accommodate the growth of two other schools. Our earnest request is to keep Oakridge Estates kids in Stoller Middle School.
03/01/2020 1:11 AM	Suya Zhang	aiyaan@126.com	Springville K-8	Stoller MS	Westview	In order to keep Summa in Stoller, JW has been trying different ways even lying in testimony. I can believe that I am seen this in real life. In the flyer my friend give me (my friend lives in JW area), it clearly states that JW will stay in Stoller but JW needs to work on to pick who else stay!!!! Members, please open your eyes and look at the data. February 25th map meets the objective that 90% of capacity in 2021. 2025 is the peak with 114% of the capacity but that's without portables. The next year the numbers are going down. Springville has stopped growing 2020 and Sato will stop by 2025, we are going to be better in 2026. Other maps split communities and doesn't even meet 90% capacity in 2021. Specifically can't fill up Timberland, the new middle school. Please bring February 25th map back.
03/01/2020 9:08 PM	Tolmachev Nikolay	4228olenik@gmail.com	Rock Creek Elem	Stoller MS	Westview	Please ensure that Rock Creek gets fair treatment when compared to other schools in North 26. I am ok with any split or distance as long as our school is academically balanced. This means that any part of us that is moved has to move with two schools from North 26 to ensure we are balanced fairly academically. BSD owe us to ensure that we get a fair deal when compared to everybody else North of highway 26 and that we are not the only school that will be impacted disproportionately and that we don[?]t carry all the burden of this boundary change.
03/01/2020 10:24 AM	varsha	varshasuren@yahoo.co.in	Springville K-8	Stoller MS	Westview	Do not split elementary schools[?]. Springville, Sato, Findley, Rock Creek and Oak Hills have all been shown split in various maps proposed by the committee or BSD. Studies have consistently shown that minimizing transitions results in better academic performance and emotional health for children. We strongly support the current Feb 25th working map which does not introduce any additional ES splits. Do not divide communities[?]. Springville cannot be separated from its eastern neighbors, Sato, whom they are closely intertwined with. Rock Creek is naturally tied to Springville and Bethany; it should not be removed from both. If any portion of Rock Creek is removed from Springville, it should be placed with Bethany. West Oak Hills is part of the Bethany Elementary community and should remain so. East Oak hills is part of the Terra Linda community and should remain so. We should also not use uncertain 2025 projections to divide existing communities especially when populations decline after 2025. Summa should not split communities[?]. [?]The Summa program should go where the highest concentration of feeding school kids go, in order to minimize splits. We across these four schools agree that the entire North Summa program should go to Timberland with Findley who constitute ~40% of Summa students in Stoller.
03/01/2020 10:04 AM	Vijay Agrawal	vijay2103@yahoo.com	Rock Creek Elem	Stoller MS	Westview	Please stop sharing maps that propose Rock Creek ES going to Five Oaks alone. This creates a huge academic inequality!! As we stated in the earlier meetings, we want to stay with west bethany neighbors. Please keep our kids together with their friends. We strongly object proposals that isolate Rock Creek.

## 3.1.20 MS BOUNDARY PUBLIC COMMENTS

03/01/2020 10:13 AM	Vijay Agrawal	vijay2103@yahoo.com	Rock Creek Elem	Stoller MS	Westview	I'm starting to question that if committee members truly look at those comments. Did you see/know what we said? As a Rock Creek parent, I don't want my children to be kicked out of Stollers and sending to anywhere without other northern neighborhood schools. Why? I still seeing map posting RC ES was sending alone to Five Oaks. Do you want force RC ES to be like other schools to hold the signs in the meeting in order to hear what we say? Please listen to us! NO sending RC ES alone! NO alone! No alone!
03/01/2020 5:34 PM	vijayk	v_koroth@yahoo.com	Springville K-8	Stoller MS	Westview	Moving SUMMA out of an overcrowded schools is important. Findley has the most SUMMA students so it makes sense to move it to Timberland. If SUMMA remains in Stoller it will never meet the objective of 90%. Also moving SUMMA out of Stoller will improve the economic diversity in Stoller. Below analysis is by transportation in BSD site. Springville to Stoller \$30,487 Springville to Five Oaks \$56,071 ----NOTE THIS AMOUNT BSD will be losing \$25,584 by moving Springville to Five oaks instead of Stoller Findley to Stoller \$22,454 Findley to Timberland \$30,742 . Increase of \$8288 Even if you net out the difference (\$25584- \$8288) BSD will save more than \$17000 by moving Springville to Stoller.
03/01/2020 12:27 PM	Vu Le	rvule@outlook.com	Jacob Wismer Elem	Stoller MS	Sunset	I believe keeping Findley in Stoller instead of Timberland has two key benefits. First is the walk-ability and reduction of transportation costs/responsibility on BSD that is important and everyone clearly recognizes. The second is a lesser benefit that might be less obvious. This opens up space at the beautiful, new \$61 million dollar campus for less privileged communities to the south or west of Timberland. Whatever school Findley goes to will be fine as the parents will more than meet any budget needs that school needs. Giving less privileged communities access to TL provide an atmosphere and environment to excel that they might not always be able to fund on their own. This helps elevate academic achievement of the district which is a wise and fair use of taxpayer money.

Dear Mr. Spark,

My name is Sridevi and I'm writing my first email to you ....can you please forward this email to committee members? - I appreciate if you can confirm whether you send it to them or not. Thank you.

Thank you Mr. Spark and Committee members for being patient and putting up with all of us, your job is not easy.

I'm sure you can't wait for this painful task to come to an end with a good solution that will satisfy majority. Same here, I can't wait for it to be done and can't wait to get back to routine and start looking forward to Spring and summer.

Abhjit had a great idea in Feb 25th meeting, I wanted to bring it to everyone's attention once again, if you can make this happen, it will help many, please reevaluate and think hard about this solution .....

Findly is a great school, it is sad to know that, this school's resources are not getting used to its fullest potential ....

**Idea:** Move Sunset feeding JW kids to Findly –

**Benefits of this move:**

- a. Clean feeder pattern – Findly – Timberland – Sunset.
- b. Great school like Findly's resources will get used to its fullest.
- c. No friendships are lost for these kinds when they go to Timberland and Sunset.
- d. Probably Pirate park Sato students can move to JW to consume freed up space by above move (They will be happy to move as JW was their original school before they got moved to Springville and then to Sato, also JW is closer to them)

e. Stoller feeder pattern will also be clean, entire Stoller can feed to Westview instead of feeding to both Westview and Sunset in current set up.

f. Springville will be happy as whole Springville can stay at Stoller.

g. No one is losing with this solution, it is a win win situation for all.

Just one elementary change can STOP a major catastrophic affect in North Bethany.....please think twice before you say NO to this idea. By saying YES, you be doing huge favor to Springville

Thanks you again.

-Sridevi

---

Hi Mr Sparks,

After reviewing the public testimonies from all elementary schools at the February 25th meeting, I've summarized their main concerns and came up with tweaks to the existing map. This proposal will address the main objectives of this committee: (1) address the Stoller overcrowding issue due to future Sato construction and (2) filling Timberland to it's capacity.

Can you please forward these slides to the committee and also make this as my public comment? I certainly hope that the committee takes time in digesting this and keeping their minds open to this proposal. As what one committee member said, we cannot fit all the jigsaw puzzle together since these aren't made to fit. If you apply one criteria, such as walkability and/or reduced lunch rebalancing to rule over other criteria, then we end up with previous A-C maps that various communities didn't like due to isolation or bad splits.

I look forward to our next meeting on the 12th.

Best regards,  
Douglas Yap

# BSD Middle School Boundary Proposal

MARCH 1, 2020

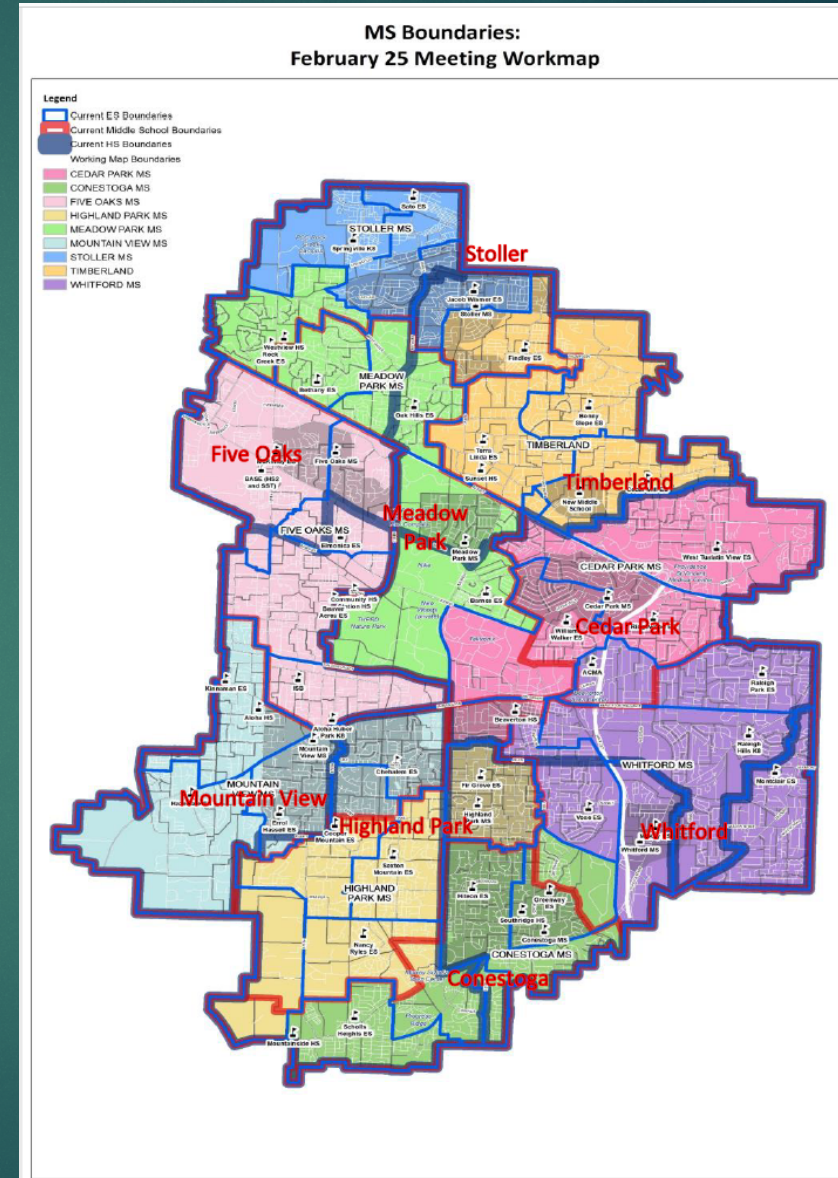

# Feb 25 Working Map Community Feedback

- ▶ Aligns with Feb 13<sup>th</sup> AC consensus.
- ▶ Map keeps communities together.

## Lingering issues:

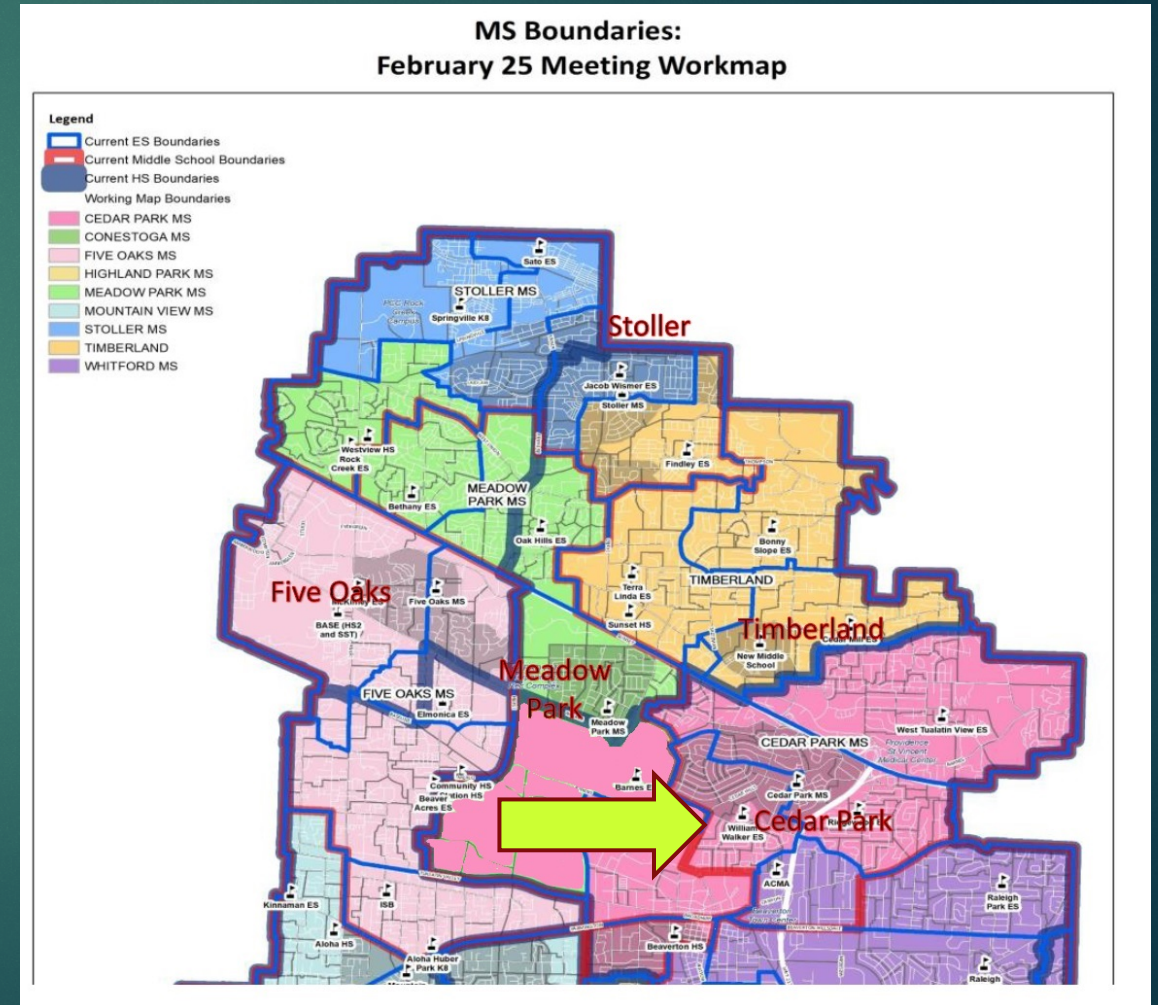

- ▶ Stoller **projected** over capacity in 2025
  - ▶ Springville's nearest middle school
  - ▶ **Forecasted** Sato growth due to future construction
- ▶ There's still space at Timberland. 80%
- ▶ Cedar Park underutilized at 80%
- ▶ Splits middle school kids going to high school
  - ▶ Jacob Wismer non-Summa kids.
    - ▶ About 100 Grade 8s at Stoller will go to Sunset.
    - ▶ The rest of Stoller (1000+ kids) goes to Westview
  - ▶ East Oak Hills
    - ▶ About 20 Grade 8s at Meadow Park will go to Sunset.
  - ▶ Barnes Dual Language Learners
    - ▶ About 30 Grader 8s at Meadow Park will go to Beaverton
- ▶ Stoller SUMMA problem...

# Step 1: South Barnes to Cedar Park

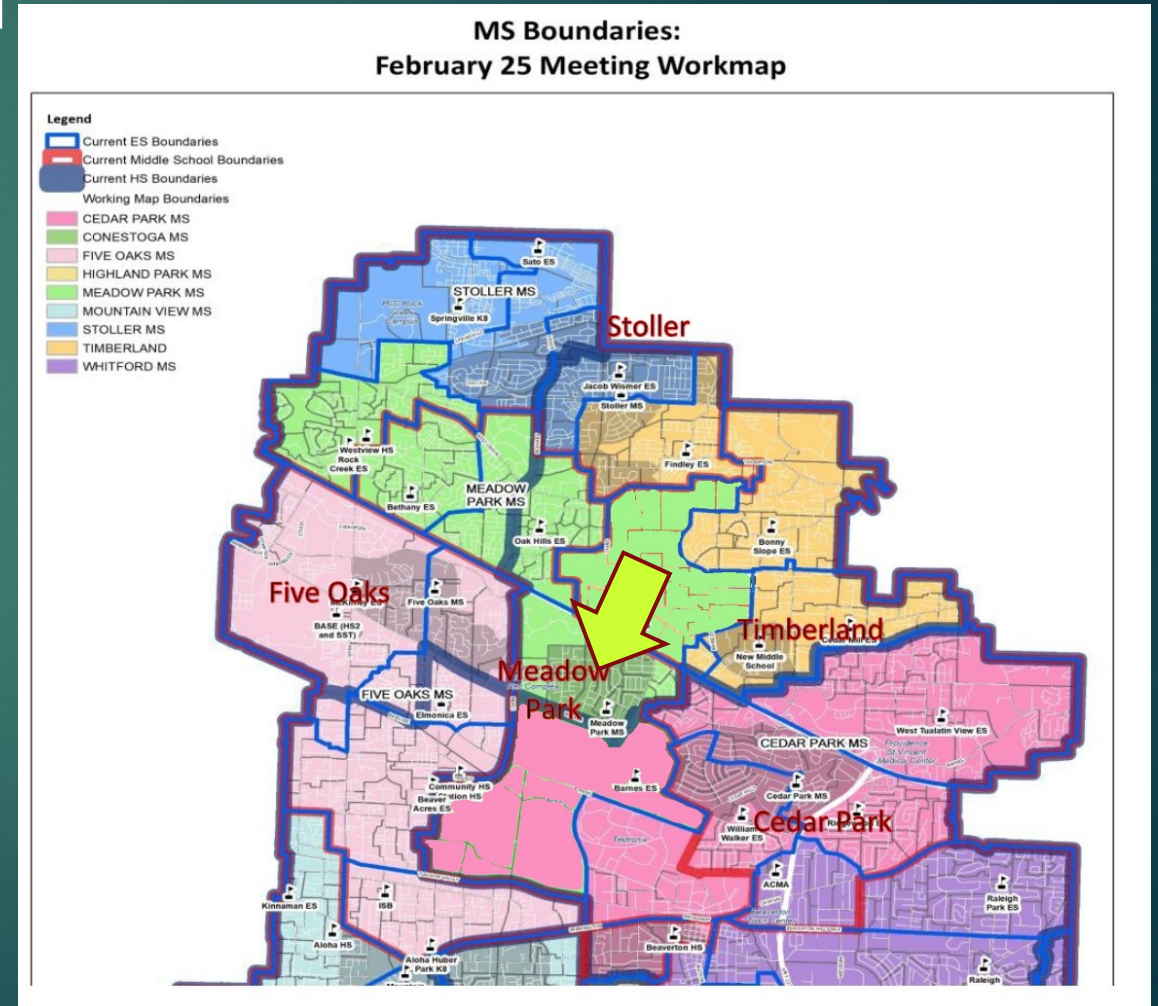

- ▶ South Barnes is right next to Cedar Park walkability zone.
- ▶ Move Meadow Park Dual Language program to Cedar Park
- ▶ Grade 8 DLLs will then go to Beaverton HS
- ▶ Cedar Park Permanent Capacity Utilization
  - ▶ 2021:  $812 / 872 = 93\%$
  - ▶ 2025:  $794 / 872 = 91\%$

# Step2: Terra Linda to Meadow Park

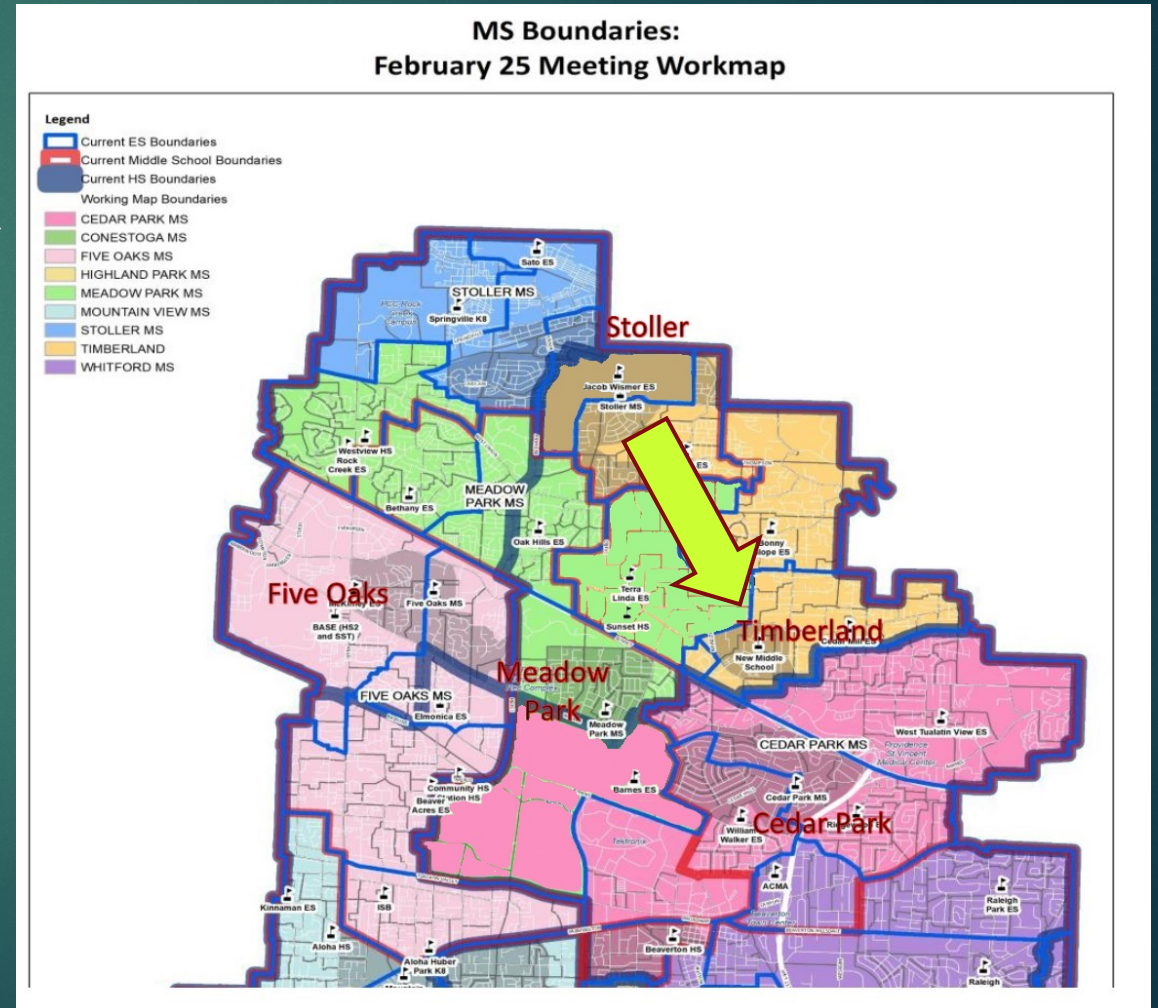

- ▶ East Oak Hills and Terra Linda are sister communities
- ▶ Both are in proximity to Meadow Park
- ▶ Continue SUMMA for Five Oaks, Cedar Park, and Meadow Park
- ▶ Meadow Park Permanent Capacity Utilization
  - ▶ 2021:  $977 / 855 = 114\%$
  - ▶ 2025:  $862 / 855 = 104\%$
- ▶ Recommend BSD to keep existing portables at Meadow Park
  - ▶ 2021:  $977 / 939 = 104\%$
  - ▶ 2025:  $862 / 939 = 91.8\%$

# Step3: Jacob Wismer at Timberland

- ▶ Keeps JW (Summa/non-Summa) together in Timberland up to Sunset HS
- ▶ Keeps Springville and Sato together
- ▶ Makes room for future Sato growth
- ▶ Keeps Stoller SUMMA within new attendance boundary
  - ▶ All SUMMA / non-SUMMA Grade8s will go together at Westview
- ▶ Stoller portables may not be needed.
- ▶ Stoller Permanent Capacity Utilization
  - ▶ 2021:  $802 / 1081 = 75\%$
  - ▶ 2025:  $1102 / 1081 = 1.02\%$
- ▶ Timberland Permanent Capacity Utilization
  - ▶ 2021:  $1194 / 1100 = 108\%$
  - ▶ 2025:  $1153 / 1100 = 104\%$

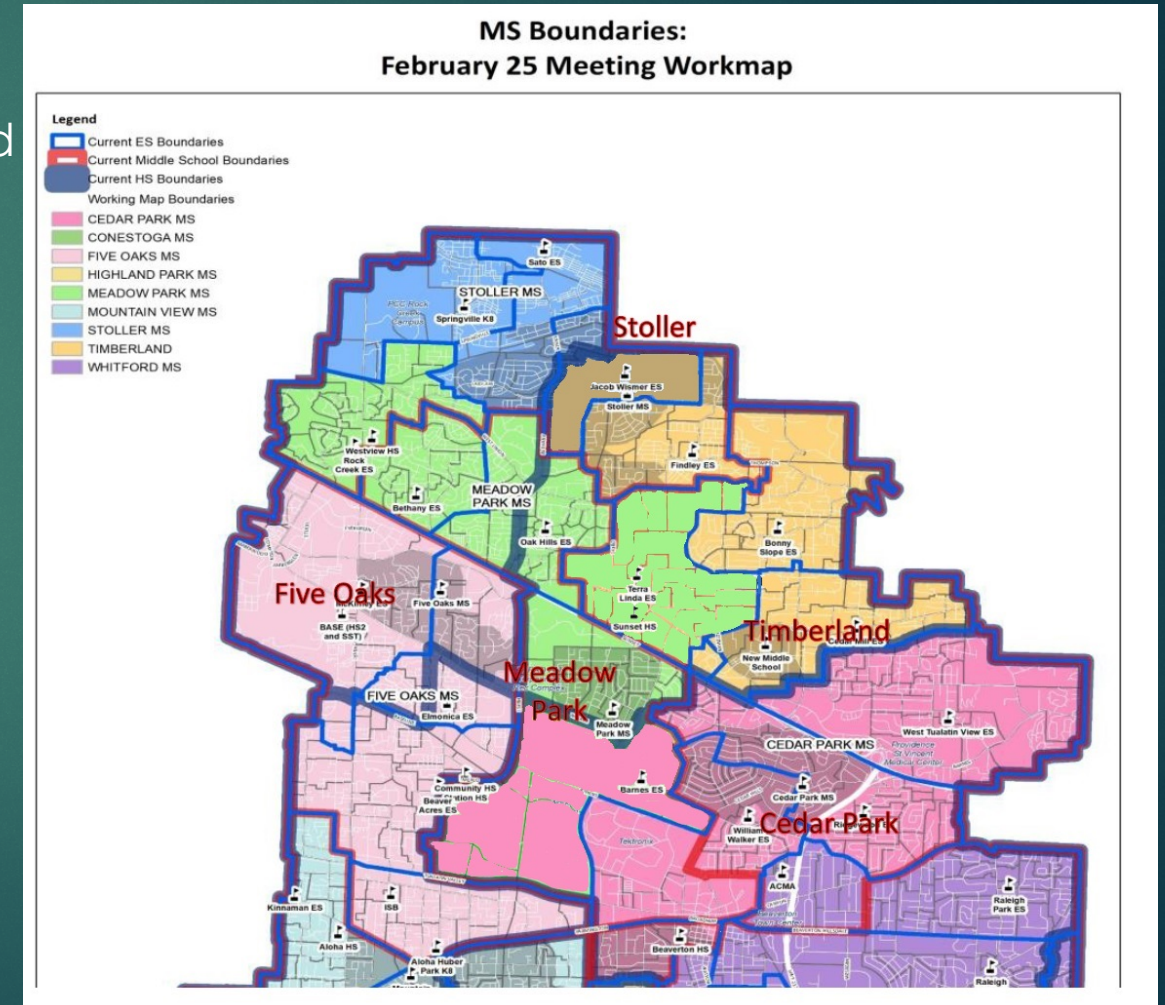

# Summary

- ▶ Keeps Communities and Dual Language intact.
- ▶ Reasonable splits with no isolations.
- ▶ Sustainable solution for Stoller forecasted growth.
- ▶ Maximize use of Timberland facility.
- ▶ SUMMA programs at Meadow Park, Stoller, Timberland
- ▶ Compromise JW walkability in exchange for healthy feeder patterns and keeping friendships through high school.

I still think this is the wrong way to calculate these numbers. This new document attached explains why- please include it with the comments. Basically, growing areas will send more students to options and Summa. Shrinking areas will send fewer students to options and Summa. Even if the overall totals remain the same for the district, you can expect the Summa and options numbers by elementary zone to move up or down proportionally.

Think about it this way- let's say Elementary Area A had 50 kids for the past 3 years, and sent 5 of them to options programs on average (10%). In five years, this area will grow to 500 resident kids. In five years, Elementary Area A will not send only 5/500 of them to Summa- they will send around 50, or 10%.

Elementary Area B may have had around 500 students for the past three years. They sent 50 of them on average, or 10%, to options programs each year. Over the next five years, they will shrink to only 50 students total. In five years, Elementary Area B will not send all 50 of these kids to options programs. They will likely send around 10%, or 5 students total.

Elementary Area A and Elementary Area B will send 55 students to options and Summa in total, both now and in five years. If the programs are capped, we aren't exceeding the cap. However, the difference is in how many students come from each elementary school. If Elementary Area A is zoned to one middle school, and Elementary Area B is zoned to another, you can see how this would have an impact on middle school numbers.

Please include this (new) attachment - titled "Flat Projections Are Wrong" - with the comments.

Thank you for all of the time you have put into this process!

Ms. Knapp -

We have noted in meeting materials that the SUMMA numbers are based on a 3-year average enrollment. Because the actual enrollment will be based on the number of students who pass the entrance exam and choose to enroll in the program, we cannot accurately predict growth or decline in the program. We stated that for this project, we would assume the 3-year average (625 students) as the number of SUMMA students for the projections. The locations of where projected Summa students are based is also determined by an average from past years.

Hello Mr. Sparks,

Please clarify for us- in the data provided in the 2/25 agenda packet, the district is projecting resident numbers by elementary school, which may go up or down due to changes in populations for that particular area.

However, regardless of total resident numbers, the number of Summa and Options students in each elementary area are flat.

Is this accurate?

For example, let's look at Beaver Acres just to illustrate:

In 2021, Beaver Acres will have **364** resident students.  
69 will attend options programs.  
3 will attend Summa.

In 2025, Beaver Acres will have **only 283** resident students.  
69 will attend options programs.  
3 will attend Summa.

So, despite shrinking overall by 81 students, the number of those attending options and Summa from Beaver Acres will be exactly the same.

This flat projection is seen across all elementary schools in BSD.

How were these 2025 numbers determined?

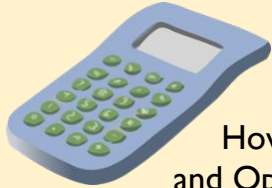

(Please see attached image that illustrates our question.)

Thank you for clarifying.

Marie Knapp  
Springville Parent

## Flat Summa and Options Projections in 2025 Are Causing Overcounts and Undercounts of Net Resident Students

In the data provided in the 2/25 agenda packet, the district is projecting resident numbers by elementary school, which may go up or down due to changes in populations for that particular area.

However, regardless of total resident numbers and the upwards or downward trends, the number of Summa and Options students in each elementary area are flat.

For example, let's look at Beaver Acres just to illustrate:

In 2021, Beaver Acres will have **364** resident students.  
**69** will attend options programs.  
**3** will attend Summa.

In 2025, Beaver Acres will have **only 283** resident students.  
**69** will attend options programs.  
**3** will attend Summa.

**So, despite shrinking overall by 81 students (-22.3%), the count of those attending options and Summa from Beaver Acres will be exactly the same.**

One would expect to see the numbers of Beaver Acres students choosing options and Summa also shrink by 22.3%.

This flat projection is seen across all elementary schools in BSD in the data provided in the 2/25 packet.

2021

Estimated Students by Program in 2021				
	Proj. Total Resident 6-8th Graders	Options & Programs*	SUMMA	Net Attending (to Boundary School)
Aloha Huber Park	360	192	1	167
Barnes	270	44	5	221
Beaver Acres	364	69	3	292
Bethany	249	72	37	140

**Why do the resident totals change for each school, but the Options and Summa numbers don't change proportionally?**

## Adjusted 2025 Numbers

Assuming, district-wide, there are still approximately the same total number attending options and Summa, but the numbers of students by school change proportionally based on growing or shrinking populations:

	Proj. Total Resident 6-8 <sup>th</sup> graders	Percent change since 2021	Adjusted Options	Adjusted Summa	Net Attending in Boundary School
Jacob Wismer	389	-2.5%	41	95	253
Sato	565	+ 40.1%	36	56	473
Springville	544	+ 28.3%	26	47	471
Total:					1197

Total Stoller-zoned net attending in boundary according to 2025 BSD Chart: 1236

Total Stoller-zoned net attending in boundary in 2025, according to proportionally counting changes in options and Summa numbers: 1197

The difference is 39 students- at least one classroom!

114.3%→  
**110.7% permanent capacity**

### If Jacob Wismer's predictions are accurate:

- A parent from Jacob Wismer stated at the 2/25 meeting that this year, 50% of Jacob Wismer 5<sup>th</sup> grade students have qualified for Summa
- If this number is correct and continues to be accurate in future years, then in 2025, we can assume there will be around 194 Students in Summa from Jacob Wismer
- This will bring the Jacob Wismer net attending in boundary school in 2025 to potentially only 154 students

	Proj. Total Resident 6-8 <sup>th</sup> graders	Percent change since 2021	Adjusted Options	Adjusted Summa	Net Attending in Boundary School
Jacob Wismer	389	-2.5%	41	194	154
Sato	565	+ 40.1%	36	56	473
Springville	544	+ 28.3%	26	47	471
Total:					1098

- The overall total of Stoller-zoned net attending will be 1098.
- **This is 101.6% permanent capacity for Stoller in 2025.**

According to Steven Sparks (email sent on 2/29/20):

We have noted in meeting materials that the SUMMA numbers are based on a 3-year average enrollment. Because the actual enrollment will be based on the number of students who pass the entrance exam and choose to enroll in the program, we cannot accurately predict growth or decline in the program. We stated that for this project, we would assume the 3-year average (625 students) as the number of SUMMA students for the projections. The locations of where projected Summa students are based is also determined by an average from past years.

The average from past years is a great starting point, but this method does not work. We are talking about the next five years, where we will see changes in overall student populations that will be different from the last three years.

**2021 numbers are not the same as 2025 numbers,  
and neither will match an average from 2017-2020.**

You may still end up with around 625 students total for Summa district-wide.  
You may still end up with around 1562 students attending options programs district-wide.

**However, growing areas (like Sato) will provide more of those 1562 students, and shrinking areas (like Beaver Acres) will provide fewer of those 1562 students.**

Why does it matter?

**If we are hung up on a small difference of 5-10% in capacity for a building (only 50-100 students), we should make sure we are accounting for all students correctly.**

Don't create splits based on unclear data for 2025!

Please keep the North Bethany community together.
