

FROM THE PRINCIPAL

Dear Parents and Community Members,

WE are committed to regular communication with parents and the community about our school. Toward that goal, here is our school report card, produced by the Oregon Department of Education.

Teachers assess student achievement of standards through frequent classroom assignments. State test results are also an important part of our assessment system. Although not as frequent as classroom assessment, state test results provide important feedback to help address learning gaps early and better prepare students for success.

I am proud to report our school met overall participation targets in English Language Arts and Mathematics. Thank you students and parents for your participation and support! State tests are one way for student to demonstrate the essential skills of reading, writing, and mathematics required for graduation. In addition, Oregon's public

colleges and universities will waive additional placement testing for entering students if they score a 3 or higher on Smarter Balanced tests and meet requirements for continued academic rigor during grade 12.

Please turn the page to see how our students are doing on state tests and high school completion rates, programs and experiences available to our students, and student survey data. To see the strategies we are implementing this year to improve student achievement and graduation rates, please review our **WE** book posted on our home page.

Thank you,

Principal | Jon Franco

OVERALL SCHOOL RATING HOW ARE STUDENTS AT THIS SCHOOL PERFORMING COMPARED TO THOSE AT OTHER SCHOOLS?

The overall school rating is intended to summarize this school's particular successes and challenges. It is based on a combination of up to five factors. Three of these factors come from standardized test scores in reading and math: student achievement, student growth, and the growth of underserved subgroups. Please note that this rating is based mainly on high-stakes testing and, accordingly, doesn't represent a complete view of your school's performance. Other aspects of this report card are designed to put this rating in the proper context.

The U. S. Department of Education has given the State of Oregon approval to temporarily suspend the assignment of school ratings during the transition from the Oregon Assessment of Knowledge and Skills (OAKS) to the new college and career readiness assessments. Schools will not receive an overall school rating on this report card and will receive a new overall school rating on the 2015-16 school report cards.
